Preface

Thank you for choosing W51SA.
Before using your W51SA, be sure to read the W51SA "Basic Manual (this PDF manual)" to ensure proper use of your W51SA. After you have finished reading, keep this PDF manual and the printed manuals (Japanese) in a safe place for your reference whenever you need. Contact the au shop or the au Customer Service Center for replacements if you lose either of these manuals.

Printed Manuals for W51SA (Japanese)

The W51SA comes with Basic Manual and a Manual.

●W51SA Basic Manual

Equivalent to this English PDF manual.

●W51SA Manual

English version is not available.

The following manuals are available in the au website:

- Download site for "Basic Manual" (Japanese and English) and "Manual" (Japanese only) (http://au-pro.kddi.com/phone/torisetu/index.html)
- The au online manual (Japanese) for searching by keyword (http://www.au.kddi.com/manual/index.html)

The au online manual (Japanese) is also available from EZweb:

<How to access>

"EZ Top Menu" → "auお客さまサポート (au Customer Support)" → "調べる (Information)" → オンラインマニュアル(Online Manual)".

Check the website of SANYO Electric Co., Ltd. below, for the troubles on your W51SA.

- From W51SA → Press [時EZ] for more than one second. (SANYO Keitai Planet, in Japanese only)
- From PC → http://www.sanyo-keitai.com (SANYO Keitai Arena, in Japanese only)

Information

- Fonts or indications may be different from those on the actual screen, or may be partly omitted for better readability of PDF manual. Note that this PDF manual may not reproduce actual screen color tones exactly.
- Screen color tones shown in this manual are those obtained with the default setting.

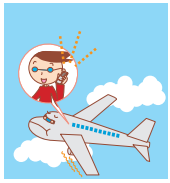

Manners for Using Cellphones

■ **A cellphone always generates weak electric waves while its power is ON.**
■ **Be considerate of others around you to use your cellphone enjoyably and safely.**

●In some places, the use of cellphones is prohibited.

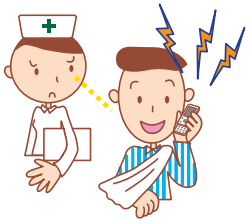

- Using cellphones while driving is dangerous and also forbidden by the law.
- Be sure to turn your cellphone OFF before you board airplanes. The use of cellphones onboard airplanes is forbidden by the law.

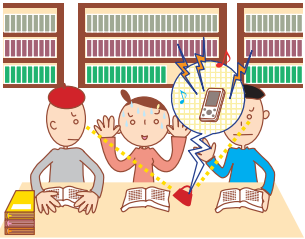

●Electric waves from cellphones may adversely influence medical devices and equipment.

- There may be someone with a pacemaker around you in crowded places such as trains. Turn your cellphone OFF in such places.
- Follow the instructions of hospitals and other medical institutions where it is forbidden to use or carry cellphones.

●Consider where to use your cellphone and be careful of the volume of your voice.

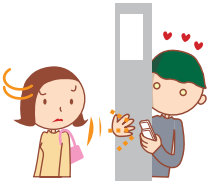

- Do not make calls in cinemas, theaters, museums, libraries and other similar places. Turn your cellphone OFF or set it to the manner mode to prevent others around you from being inconvenienced by ring tones for incoming calls or mails.

- When on a crowded street, use your cellphone in places where you do not prevent others from passing.
- When on a train or in a hotel lobby, move to an area where you will not bother others around you.
- Take care not to talk too loudly during conversations.

- When you shoot photos or movies of others with your cellphone, get permission from them.

Basic of Cellphone

What You Can Do with W51SA

Mail
You can send mails to other cellphones or personal computers.

→ Page 41

EZweb
You can download Chaku-Uta®, Chaku-Uta-Full®, and wallpapers, etc.

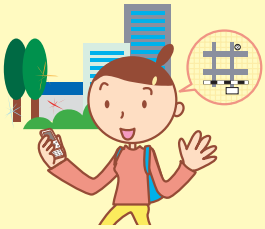

→ Page 63

EZ・FM
You can easily enjoy FM radio.

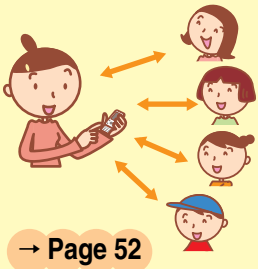

→ Page 84

EZ Navi
You can search various location information with the functions of "EZ Navi Walk", "Passenger Seat Navi" or "Safety Navi".

→ Page 70

Hello Messenger
You can enjoy the text or voice, etc. shared with maximum of 4 members.

→ Page 52

EZ FeliCa
You can shop on-line using e-money as well as use your phone as a members' card, point card, for receiving coupons, etc.

→ Page 74

EZ Television (1Seg)
You can watch the Digital Terrestrial Broadcasting for Mobile Television Service (1Seg).

→ Page 79

Camera
You can shoot photos or movies and easily send them by E-mail.

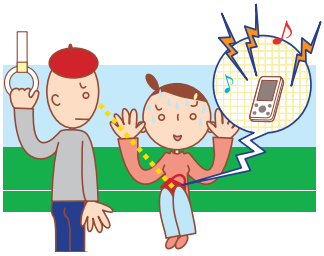

→ Page 56

Manner Mode and Answer Phone

■ Manner Mode

With Manner Mode, you can set the ringer not to sound so as not to bother the people around you.

Press (クリア) for more than one second while the standby screen is displayed.

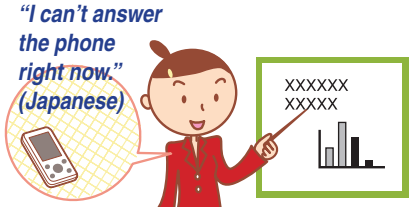

→ Page 29

■ Answer Phone

The caller can leave a message when you cannot answer the phone.

Press [メール] while the standby screen is displayed. Then select "Ans Ph/ Ph Memo" → "Answer Phone" → "ON".

→ Page 24

Check the Power, Reception and Battery!

■ Keep the "power" ON for normal use.

Keep the power ON to make or answer calls.

Press (電源) for more than one second.

→ Page 13

■ You cannot talk on the phone if the "radio wave" is too weak.

It is sometimes difficult to receive the radio wave in some places even within a service area.

"  " indicates the reception condition.

→ Page 13

■ Be careful of the remaining "battery" power.

If the remaining battery power is too low, you may not be able to use the cellphone properly.

"" indicates the remaining battery power.

→ Page 13

Do not Use Your W51SA While Driving

■ **Holding a cellphone in your hand to make phone calls and/or watching the screen to view E-mails etc., while driving shall be subject to penalties. (The implementation of the revised Road Traffic Law on November 1, 2004)**

× Viewing E-mails and watching the screen

× Calling with a cellphone in your hand

Turn the Power OFF or Set Drive Mode While Driving

■ Drive Mode

By setting Drive mode, you will enable the caller to hear a response message such as "Now driving. I cannot answer the phone right now...(Japanese)", and to store a message in Answer Phone.

Press (クリア) while the standby screen is displayed, and select "Drive" → "Continuous Mode".

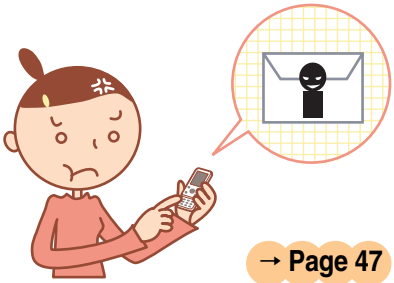

Beware of Junk Mails and One-ring Calls!

■ If you receive junk mails...

Using the mail filter function, you can reject mails sent from specific addresses or mails that bear "未承諾広告※(Unsolicited Ad)" in the title, which is the biggest source of junk mails.

The following mail functions are available for preventing arrival of junk mails.

- "未承諾広告フィルター": Rejects "未承諾広告 (Unsolicited Ad) mails.
- "アドレスフィルター": Rejects mails sent from specified addresses.
  - "指定受信設定": Accepts only mails sent from specified addresses.
  - "指定拒否設定": Rejects mails sent from specified addresses.

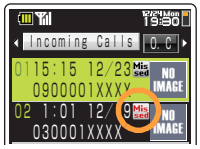

→ Page 47

■ If you receive calls from unknown numbers...

It may be "One-ring Calls" intended to trick you into calling back and accessing unwanted pay programs.

If One-ring Calls are received, Missed appears in Incoming Calls.

→ Page 23

Making Key Operation Invalid

■ Making Key Operation Invalid

Prevent key from misoperation when carrying your W51SA closed in the bag.

Press ● for more than one second while the standby screen is displayed.

To release from the locked status

Open your W51SA and press ● for more than one second while the standby screen is displayed.

Disaster Message Board Service

About Disaster Message Board

When a big scale disaster occurs, you can register your safety information through EZweb.
The registered safety information can be referred from anywhere in Japan through EZweb or Internet.

Registering Safety Information

◆ When a big scale disaster occurs, you can register your safety information such as your condition or comments, from au cellphone, to "災害用伝言板 (Disaster Message Board)" created on EZweb.

◆ After the registration of your safety information, you can notify by E-mail your family or acquaintances you have previously designated that you registered your safety information on "災害用伝言板 (Disaster Message Board)".

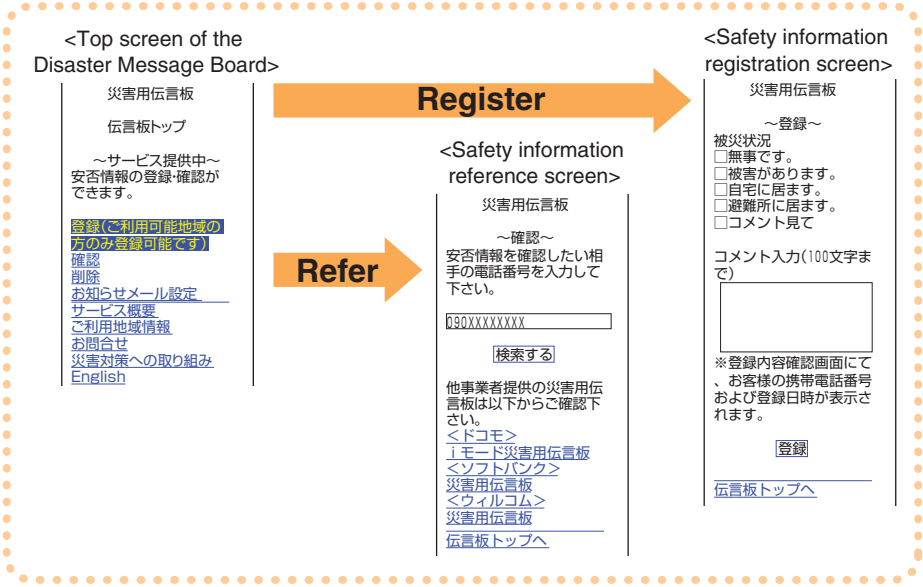

Referring to Safety Information

◆ You can check the safety information of the person you desire to know about, by entering his/her phone number from EZweb or Internet*.

* The safety information can be accessed at http://dengon.ezweb.ne.jp/ from cellphones of other carriers, PHS or personal computer.

How to Access	記号 → "Top Menu" → "災害用伝言板 (Disaster Message Board)"
	http://dengon.ezweb.ne.jp/

- The maximum preservation period of the registered information is 72 hours.
- The maximum number available for each registration is 10. When the number of registration exceeds 10, the information will be overwritten from the oldest one.
- The demonstration of this service can be referred to anytime by pressing 記号 → "Top Menu" → "auお客さまサポート (au Customer Support)" → "災害用伝言板(デモ版) (The demonstration of Disaster Message Board)".
- Select "English" to use the English mode.

Before Use

Confirming the Package Contents

The W51SA phone and accessories are included in the package.

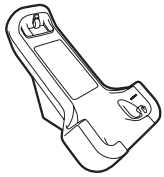

W51SA Phone

Battery Pack

Desktop Holder

Stereo Earphones (Sample)

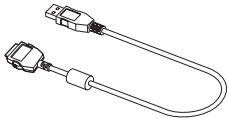

MDR-E0931 by Sony

SANYO Round-type Earphone Jack Conversion Adapter 01

USB Cable (Sample)

CD-ROM (Japanese)

Basic Manual (Japanese)

Manual (Japanese)

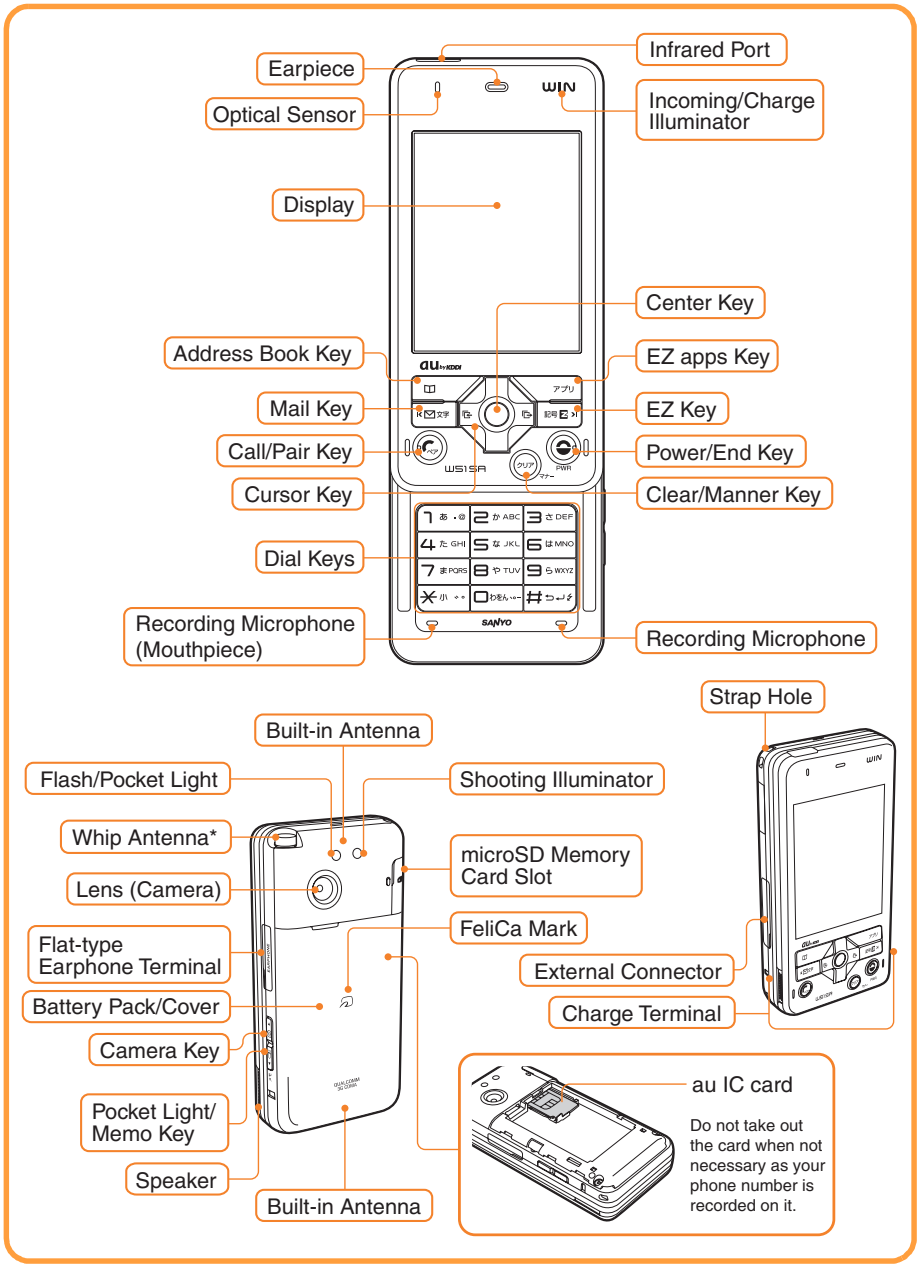

- Warranty (Japanese)
- Precautions in Use (Japanese)
- Global Expert User Guide (Japanese)
- LISMO Installation Guide (Japanese)
- Osaifu-Keitai® Quick Guide (Japanese)

Information

- An AC adapter is not included in the package. Please purchase the common AC adapter 01 separately.
- microSD™ Memory Card (Commercially Available) is not included in the package.

Name of Parts

* Extend the whip antenna when you use EZ Television (1Seg), EZ · FM or the FM Transmitter. It does not improve the quality of voice calls or EZweb communication.

Charging the Battery Pack

The battery pack is not fully charged at the time of purchase.
Charge the battery pack before using your W51SA for the first time.

■How to Charge the Battery Pack

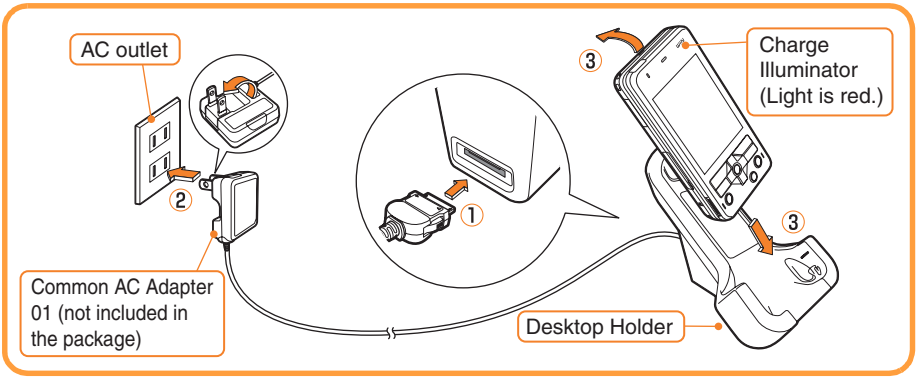

1 **Connect the Common AC Adapter 01 to Desktop holder.**

Check the pin configuration and orientation of the connector and connect it horizontally.

2 **Plug the power plug of the Common AC Adapter 01 into an AC outlet.**

3 **Place the W51SA with the battery pack attached on Desktop holder, as illustrated below.**

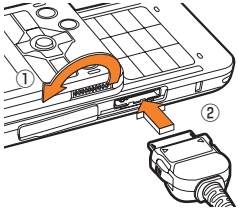

Hold Desktop holder to detach the W51SA.

- The cellphone beeps and the charge illuminator lights red. → Charging is in progress.
- The cellphone beeps and the charge illuminator turns off. → Charging is completed.

Information

- The battery pack can also be charged by directly inserting the Common AC Adapter 01 connector (not included in the package) into the external connector on the W51SA.
- Note that the actual figures may differ from the illustrations depending on your AC adapter.

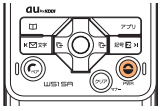

Opening/Closing the W51SA

When opening the W51SA, simply slide the front part of the unit (with the display) upward. When closing it, slide gently in the opposite direction.

Turning the Power ON/OFF

1 Press ⏻ for more than one second.

<Standby Screen>

Check the battery level.

High	Medium	Low	Zero	Charging

Check the radio wave reception.

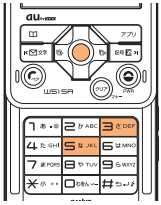

Strong	Medium	Weak	Very weak	Out of service area

- When "Out" appears, you cannot make or receive calls.
- When " " appears, you may not be able to make or receive calls.

Switching Screen Display to English

Menus, messages and other screen display language can be switched between Japanese and English.

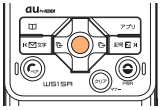

1 Press [3 さ DEF] [5 な JKL] while the standby screen is displayed.

► The Set Language screen appears.

2 Use ◆ to select "English" and press ◆ (Set).

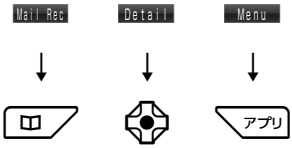

► The screen display is set to English.

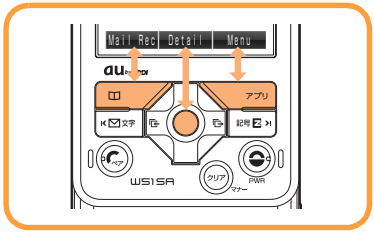

Basic Usage

■Items in the Underpart of the Display and the Operation

Use the assigned key to operate the item indicated in the underpart of the display. The displayed items may differ depending on the screen.

For the case illustrated on the right, press the following keys.

■How to Use the Keys

Center Key
Viewing Main Menu/ Defining the item
Pressing for more than one second:
Setting the key operation valid/invalid.

Address Book Key
Viewing Address Book
Pressing for more than one second:
Registering a new entry to the address book

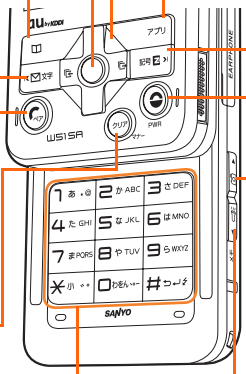

Mail Key
Accessing E-Mail Menu
Pressing for more than one second:
Accessing C-Mail Menu

Call/Pair Key
Making/answering a call
Accessing Popular Menu

Clear/Manner Key
Canceling the operation (to display the previous screen), erasing characters, and accessing the setting screen of Manner Mode
Pressing for more than one second:
Setting/releasing Manner Mode

Dial Keys
Entering phone numbers or characters

Cursor Key
Moving the cursor
Pressing the up key to select the EZ News Flash Ticker Display or increase the volume, the left key to view Incoming Calls, the down key to decrease the volume, or the right key to view Outgoing Calls.
In this PDF manual, the operations of the cursor keys are shown as follows;
Press the up or down key →
Press the left or right key →
Press the center key →

EZ apps Key
Accessing EZ apps (BREW®)

EZ Key
Accessing EZ Service Menu

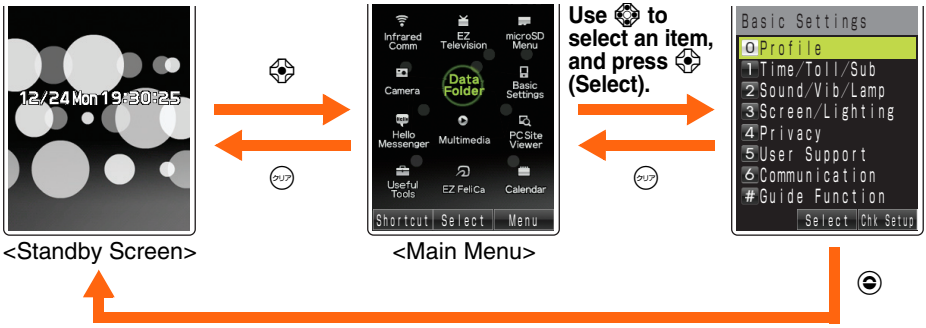

Power/End Key
Ending calls or operations
Pressing for more than one second:
Turning the power ON/OFF

Camera Key
Audible notification of the current time or other notices
Pressing for more than one second:
Activating camera (for shooting photos)

Pocket Light/ Memo Key
Accessing Voice/Memo menu
Pressing for more than one second:
Turning ON the pocket light

■Using the Main Menu

Press Center Key (◉) while the standby screen is displayed, and the main menu appears.
Use Cursor Key (◉) to select an item from the main menu, and press ◉ to access the selected function.

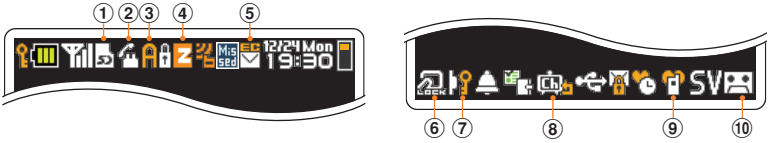

<Standby Screen> <Main Menu>

Press (クリア) to return to the previous screen if you get confused or make a wrong operation. Press ⓞ to return to the standby screen. Depending upon the function currently in use, it may be possible to pause that function (and switch to BGM Play) by pressing ⓞ.

Icons

<Display>

Initializing E-mail and EZweb Settings

Application to the EZweb service is required in advance to use the E-mail and EZweb services. Contact au shops or the au Customer Service Center if you did not apply to the service at the time of purchase.
Perform the EZweb initialization before using this service. Initialization automatically provides your E-mail address.

1 Press 文字 while the standby screen is displayed.

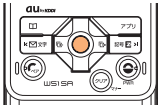

EZwebを利用するための初期設定を行います

PCサイトビューアーの初期設定も行います。

「OK」を押してしばらくお待ちください。

2 Press (OK).

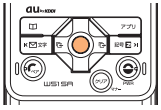

Initializing subscriber account.

Please be patient...

► Wait for a while until the screen on the right appears.

Welcome to EZweb.
Your e-mail address is:
△△△△△△△△△@ezweb.ne.jp

3 Press (OK).

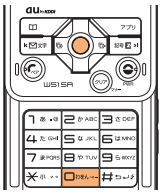

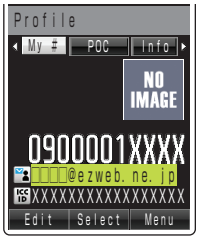

Information

- Initialization can also be performed by pressing 即時 or アプリ while the standby screen is displayed.

Confirming Your Phone Number and E-mail Address

1 Press ● while the standby screen is displayed, and press わぎゃ.

► The Profile screen appears, and you can confirm your phone number and E-mail address.

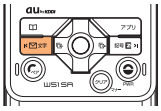

Information

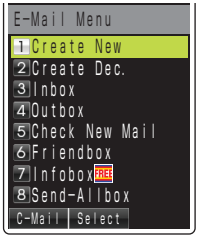

- While the standby screen is displayed, your phone number and E-mail address can also be confirmed by selecting ● → "Basic Settings" → "Profile".

Changing Your E-mail Address

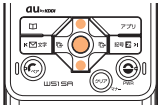

E-mail Address
Example: △△△ @ezweb.ne.jp
Customizable Part　Domain

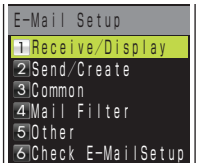

1 **Press [メール/文字] while the standby screen is displayed.**

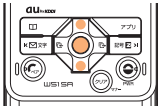

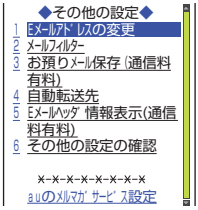

2 **Use ◆ to select "E-Mail Setup" and press ◆ (Select).**

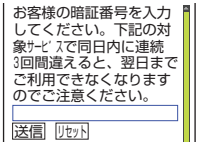

3 **Use ◆ to select "Other" and press ◆ (Select).**

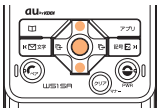

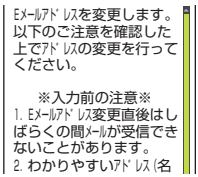

4 **Use ◆ to select "Eメールアドレスの変更 (Change E-mail Address)" and press ◆ (Select).**

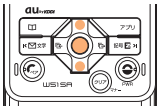

5 Enter your Security Code and press ● (OK). Use ● to select "送信 (Send)" and press ● (Select).

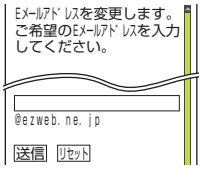

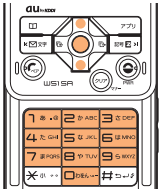

- Security Code is a 4-digit number you have filled in the application form at the time of purchase.
- If you enter a wrong Security Code 3 times in a row within the same day, you will not be allowed to perform setup operations until the following day.

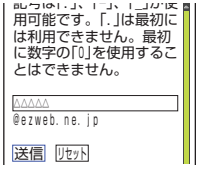

6 After checking the cautions, use ● to select "承諾する (Agree)" and press ● (Select).

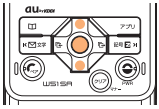

7 Use ● to select the entry area and press ● (Edit). Enter an E-mail address and press ● (OK).

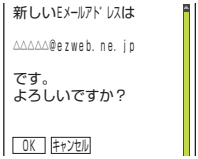

- For details about entry of E-mail addresses, see page 32.

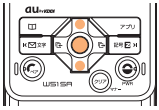

8 Use ● to select "送信 (Send)" and press ● (Select).

If the E-mail address you try to set is not accepted:
The E-mail address you entered is already being used. Enter a different E-mail address.

9 After confirming the new address, use ● to select "OK" and then press ● (Select).

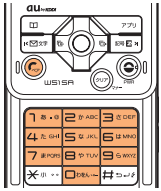

- After this step, perform operations as prompted by on-screen instructions.

Phone Call

Making a Call

1 **Use the わ to 9 keys to enter the receiver's phone number, then press ☎.**

To make a call to a regular telephone, enter the phone number starting with the area code.

How to make a call:

Adding "184" before the phone number	Your phone number is not displayed on the receiver's display.
Adding "186" before the phone number	Your phone number is displayed on the receiver's display.
Adding nothing	The call is made in accordance with the Caller ID Notice setting.

Enter a phone number and press ● (Select). Use ● to select "Add Extra No." and press ● (OK) to add "184" or "186".

Making an International Call

■au International Call Service

Available without any additional application.
Example: To call 212-123-XXXX in the USA

005345	–	1	–	212	–	123-XXXX
↑		↑		↑		↑
International access code		Country code (USA)		Area code*		Phone number

* When an area code begins with "0", dial excluding "0".

- Calling charges for this service are added to monthly au calling charges and billed together.
- Check the Country code at au Customer Service Center.
- For charges, refer to au MOBILE PHONE SERVICE GUIDE or contact au Customer Service Center.

■001 KOKUSAI MOBILE TALK

Application required.
For inquiries, contact KDDI Customer Service Center at 0077-7160 (Toll-free; open 9:00 to 20:00 every day including weekends and national holidays).

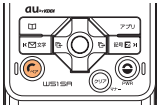

001	–	010	–	1	–	212	–	123-XXXX
↑				↑		↑		↑
KDDI International access code				Country code (USA)		Area code*		Phone number

* When an area code begins with "0", dial excluding "0".

- Calling charges for 001KOKUSAI MOBILE TALK are charged separately from monthly au calling charges.
- Check the Country code at au Customer Service Center.
- For charges, refer to au MOBILE PHONE SERVICE GUIDE or contact au Customer Service Center.

Answering a Call

1 **Press ◯ to answer an incoming call.**

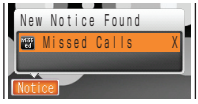

Press ◯ to hang up.

Screen displays for incoming phone calls:

Caller's phone number Example: "0900002XXXX"	The caller has set it so as to display his/her phone number. The caller's name is also displayed if the caller's information is registered in your address book.
"ID Unsent"	The caller has set it so as not to display his/her phone number.
"Payphone"	The call is made from a payphone.
"Not Support"	The call is made from the phone that does not support ID notification.

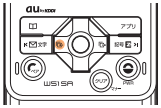

Screen display when the call is not answered:
The message shows that there were incoming calls unanswered (Missed Calls).

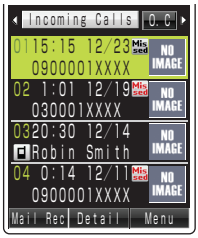

Calling Back (Outgoing Calls/Incoming Calls)

Example: To make a call from Incoming Calls

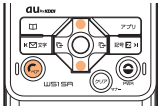

1 **Press ● while the standby screen is displayed.**

- Press ● to display Outgoing Calls.
- The list shows the latest dialed/received call on top.

2 **Use ● to select the phone number, then press ✆.**

Information

- The latest 20 phone numbers you dialed (Outgoing Calls) and received (Incoming Calls) are saved in each history.

Countermeasure for One-ring Calls

■What is One-ring Calls?

One-ring Calls is made to leave the number in Incoming Calls, and receivers who call back will be automatically connected to high-charged programs such as dating service.

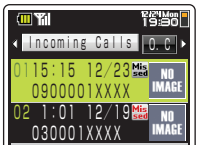

■Icon as Countermeasure for One-ring Calls

On the W51SA, One-ring Calls (the ringer time is 3 seconds or less) are displayed as Missed in Incoming Calls. Be careful when you call back to an unfamiliar number.

Icons displayed on Incoming Calls

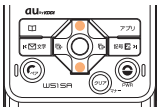

Missed : Missed calls of which ring time is 3 seconds or less

Missed : Missed calls of which ring time exceeds 3 seconds

Adjusting the Other Party's Voice Volume

1 **Use ◎ to adjust volume during a call.**

Press ◎ to increase the volume.

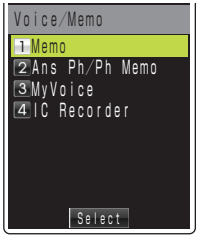

Press ◎ to decrease the volume.

The voice volume can be adjusted in 9 levels during the call.

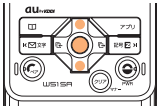

Setting Answer Phone

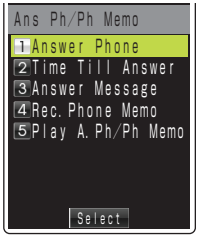

1 **Press ▭ while the standby screen is displayed.**

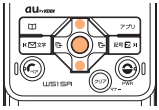

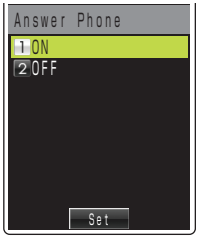

2 **Use ◎ to select "Ans Ph/Ph Memo" and press ◎ (Select).**

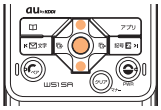

3 **Use ◎ to select "Answer Phone" and press ◎ (Select).**

4 Use ◉ to select "ON" and press ◉ (Set).

► Answer Phone is turned ON and "📼" appears on the standby screen.

■To Turn Answer Phone OFF

Select "OFF" in step 4 and press ◉ (Set).

Information

- You can record each message for approximately 20 seconds maximum in Answer Phone, and up to 3 messages can be recorded including Phone Memo.
- Use "Answering Service (Voice Mail)" when you have turned the power off or where the radio wave is blocked.

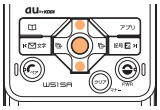

Playing Back Messages on Answer Phone

When a message is recorded on Answer Phone:

► (Answer Phone) and the number of messages appears.

1 Use ◆ to select "" and press ◆ (Check).

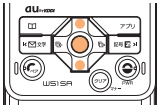

Icons

: Unchecked Answer Phone message

: Checked Answer Phone message

2 Use ◆ to select the recorded message to play back and press ◆ (Play).

Information

• Messages on Answer Phone can be erased by the following steps.

①While or after playing recorded messages in step 2, press アプリ (Menu).

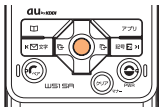

②Use ◆ to select "Erase" and press ◆ (OK).
(If you operate the function while playing the message, go to step ④.)

③Use ◆ to select "Erase One" and press ◆ (OK).

④Use ◆ to select "YES" and press ◆ (OK).

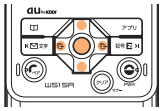

Changing Ringer Volume and Type

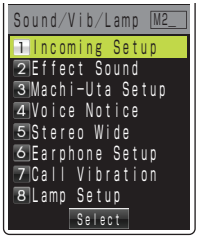

1 **Press ● while the standby screen is displayed.**

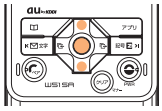

2 **Use ● to select "Basic Settings" and press ● (Select).**
Use ● to select "Sound/Vib/Lamp" and press ● (Select).

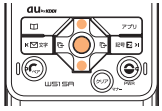

3 **Use ● to select "Incoming Setup" and press ● (Select).**
Use ● to select "Call Notice" and press ● (Select).

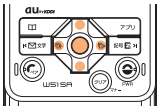

4 **Use ● to select "♪" and press ● (Select).**
Use ● to select "Original" and press ● (Select).

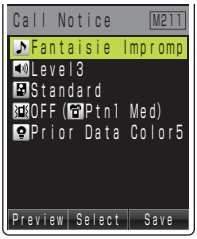

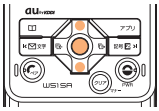

Pressing (Play) plays back the selected ringer.

5 Use ◉ to select a melody and press ◉ (Set).

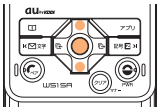

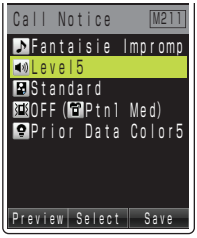

6 Use ◉ to select " 🔊 " and press ◉ (Select).

7 Use ◉ to adjust the volume and press ◉ (Set).

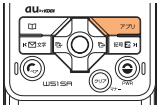

Press ◉ to increase the volume.

Press ◉ to decrease the volume.

The ringer volume can be adjusted in 5 levels. Set the volume to "OFF" to mute the ringer.
Press アプリ (STEP↑) to gradually increase the volume from Level1.
Press 🕮 (STEP↓) to gradually decrease the volume from Level5.

8 Press アプリ (Save).

The melody (ringer) is set.

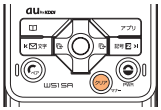

Information

- The default ringer is "Polovetsian Dance".
- The latest Chaku-Uta® (ringer) can be downloaded and set as the ringer. See page 67.

Setting Manner Mode

The vibrator of the W51SA notifies you of the incoming call.

1 Press (クリア) for more than one second while the standby screen is displayed.

► "SV" and " " appear on the standby screen. Answer Phone is turned ON at the same time and " " appears on the standby screen.

■To Turn Manner Mode OFF

Press (クリア) for more than one second while the standby screen is displayed.

► "SV" and " " disappear when Manner Mode is turned OFF. Answer Phone is turned OFF at the same time, and " " also disappears.

Inputting Text

Switching Input Mode

On the character input screen, press [文字] to display the input mode selection screen.
Use ◎ to select an input mode and press ◎ (OK).

Entering Single-byte Alphanumeric Characters

You can use the key [1あ・@] to [0わん゛゜] to enter characters. The characters appear as shown in the following table each time the indicated key is pressed.
Example: Each time you press the [2かABC] key, the characters appear in the order of "a", "b", "c", "2", "a", "b"...
Press the key of the character to enter next, after the desired character is displayed.

Key	Lowercase character input mode								Uppercase character input mode							
	Number of presses								Number of presses							
	1	2	3	4	5	6	7	8	1	2	3	4	5	6	7	8
[1あ・@]	.	@	-	_	/	:	~	1	.	@	-	_	/	:	~	1
[2かABC]	a	b	c	2					A	B	C	2				
[3さDEF]	d	e	f	3					D	E	F	3				
[4たGHI]	g	h	i	4					G	H	I	4				
[5なJKL]	j	k	l	5					J	K	L	5				
[6はMNO]	m	n	o	6					M	N	O	6				
[7まPQRS]	p	q	r	s	7				P	Q	R	S	7			
[8やTUV]	t	u	v	8					T	U	V	8				
[9らWXYZ]	w	x	y	z	9				W	X	Y	Z	9			
[0わん゛゜]	0								0							
[*小・゛]	Switches between uppercase and lowercase characters.															
[#ﾓｰﾄﾞ]	Shifts to the previous character assigned to the same key, when the entered character has not yet settled (Back Space function). Inputs a line break if possible after the entered character has been settled.															

Information

- Up to 30 lowercase characters including " - " (hyphen), " . " (dot) or "_" (underbar) can be used for your E-mail address.
  " . " (dot) or "0" (numeric) cannot be used at the beginning of an address.
  The characters and symbols in the gray cells ( ) cannot be used before the "@" as in "@ezweb.ne.jp".

■Consecutively Entering Characters Assigned to the Same Key

After entering the first character, press ◎ and the next key.

Example: Entering "ab"

Press 2 abc once. **Press ◎.** **Press 2 abc twice.**

■Erasing Characters

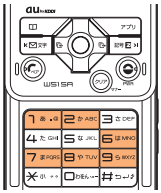

Press クリア to erase a character.

Press クリア for more than one second to erase all characters after the cursor (▮). All characters are erased when the cursor (▮) is at the end of the text.

Entering E-mail Address

Example: To enter "taro@sanyo.ne.jp" using Phrase

1 Enter "taro@sanyo".

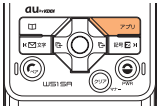

t : Press 8 TUV once.
a : Press 2 ABC once.
r : Press 7 PQRS 3 times.
o : Press 6 MNO 3 times.
@: Press 1 twice.
s : Press 7 PQRS 4 times.
a : Press 2 ABC once.
n : Press 6 MNO twice.
y : Press 9 WXYZ 3 times.
o : Press 6 MNO 3 times.

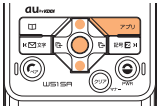

Press 1 once to enter " . ".

2 Press アプリ (Menu).

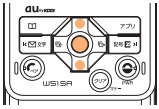

3 Use ◉ to select "Phrase" and press ◉ (OK). Use アプリ (Category) to select "Internet".

Press ◉ or ✕/# to switch between the phrase lists by category.

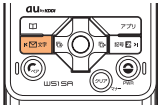

4 Use ◉ to select ".ne.jp" and press ◉ (Select).

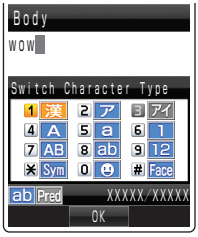

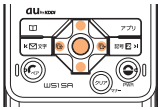

Entering Pictograph

1 **Press [文字] on the character input screen.**

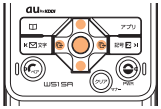

2 **Use ◉ to select "😃" and press ◉ (OK).**

Press [アプリ] (Category) or [*小゛゜]/[#つづき] to switch between the pictograph lists by category.

3 **Use ◉ to select a pictograph to enter and press ◉ (Select).**

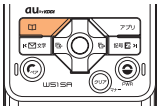

You can consecutively enter pictographs by pressing [ロ] (Continue) instead of ◉ (Select).

Address Book

Registering Data in Address Book

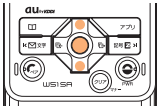

You can register data up to 1000 in the address book.

1 **Press [Address Book] for more than one second while the standby screen is displayed.**

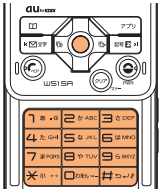

2 **Use [Navigation] to select "Name" (Name) and press [Select] (Select).**

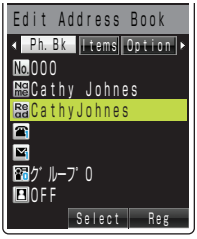

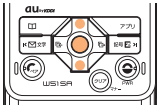

3 **Enter a name and press [OK] (OK).**

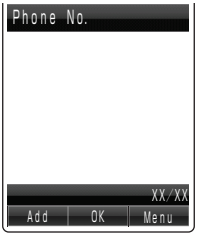

► The reading is automatically entered.

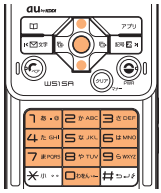

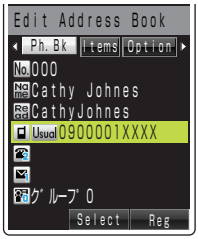

4 **Use [Navigation] to select "Phone No.1" (Phone No.1) and press [Select] (Select).**

5 Enter a phone number and press ● (OK). Use ● to select a type of phone number and press ● (Select).

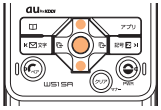

Enter the area code when registering a regular telephone number.

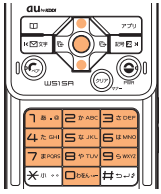

When you do not enter an E-mail address, go to step 8.

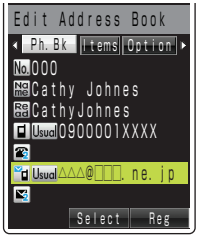

6 Use ● to select "✉1" (E-Mail Address1) and press ● (Select).

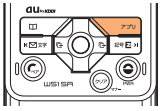

7 Enter an E-mail address and press ● (OK). Use ● to select a type of E-Mail address and press ● (Select).

8 Press アプリ (Reg).

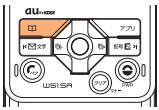

The available number for entries remaining appears.

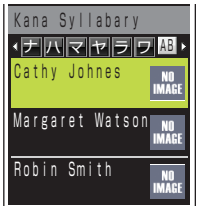

Information

- Entries are automatically registered in the lowest available memory number between 000 and 999.
- In addition, groups, images or other items can be registered.

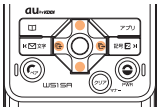

Making a Call from Address Book

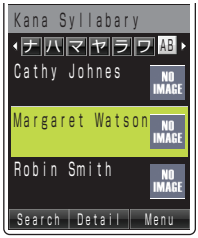

1 **Press [Address Book] while the standby screen is displayed.**

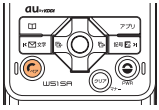

2 **Use [Navigation] to select the person to call.**

Press [Navigation] (Detail) to display the detail screen where you can confirm registered contents such as phone numbers and E-mail addresses.

3 **Press [Talk].**

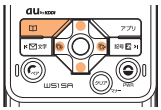

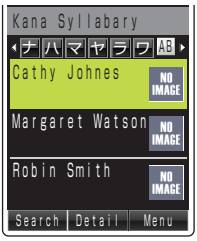

A call is made to the selected phone number.

Editing Address Book Data

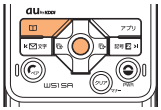

Example: To change a phone number

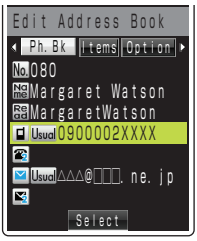

1 **Press [Edit] while the standby screen is displayed, and use ◉ to select the data to edit.**

2 **Press ◉ (Detail) and [Edit] (Edit).**

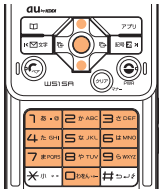

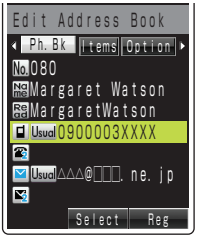

3 **Use ◉ to select " " (Phone No.), and press ◉ (Select).**

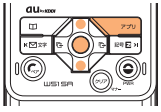

4 **Edit data and press ◉ (OK). Use ◉ to select a type of phone number and press ◉ (Select).**

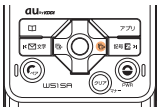

Use [Clear] to erase the characters.
Press [Clear] for more than one second to erase all characters.

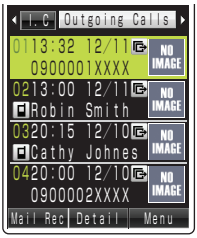

5 **Press [Reg] (Reg). Use ◉ to select "YES" and press ◉ (OK).**

Registering Data from Outgoing/Incoming Calls

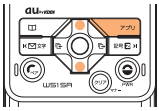

1 Press ● while the standby screen is displayed.

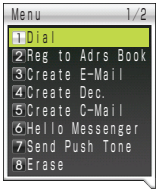

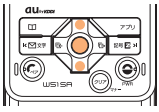

- The Outgoing Calls screen appears.
- Press ● to display the Incoming Calls screen while the standby screen is displayed.

2 Use ● to select the phone number to register and press アプリ (Menu).

3 Use ● to select "Reg to Adrs Book" and press ● (OK).

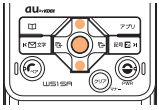

"Register New": Registers new data in the address book.

"Add'l Register": Adds or edits existing data and then registers the data in the address book.

4 Use ● to select "Register New" and press ● (OK). Use ● to select a type of phone number and press ● (Select).

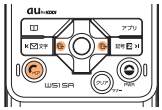

- To input the name, refer to procedures after step 2 of "Registering Data in Address Book" (page 34).

Pair Function

You can register the frequent contacts (up to 5 entries) as Popular Contacts to make calls, send mails or use Hello Messenger easily.

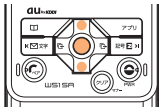

Registering Data as Popular Contact

1 **Press ✆ while the standby screen is displayed.**
Use ⊕ to select a tab of the number to register.

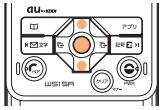

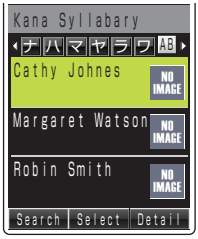

2 **Use ⊕ to select "Reg./Rel." and press ⊕ (Select).**

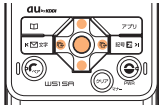

3 **Use ⊕ to select "YES" and press ⊕ (OK).**

4 **Use ⊕ to select the person to register and press ⊕ (Select).**

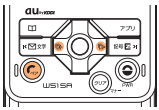

► The phone number and the E-mail address registered as Usual in the address book appear.

Information

- Select an entry from the address book to register as Popular Contact. Before registration, refer to "Registering Data in Address Book" (Page 34) and register the data of the Popular Contact in the address book.

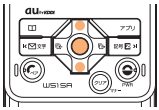

Making a Call to the Popular Contact

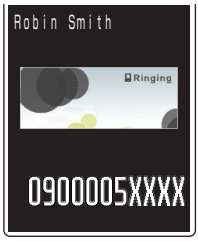

1 **Press ( ) while the standby screen is displayed.**
Use ( ) to select the person to call.

2 **Use ( ) to select "Dial" and press ( ) (Select).**

■Sending a Mail to the Popular Contact

Use ( ) to select "E-Mail" or "C-Mail" in step 2 and press ( ) (Select).

Refer to "Creating and Sending E-mail" (Page 42) to create an E-mail, or "Creating and Sending C-mail" (Page 49) to create a C-mail.

■Inviting a Popular Contact to a Hello Messenger Meeting

Use ( ) to select "Hello Messenger" in step 2 and press ( ) (Select).

See "Inviting Member to the Meeting" on page 54 for the rest of the procedure.

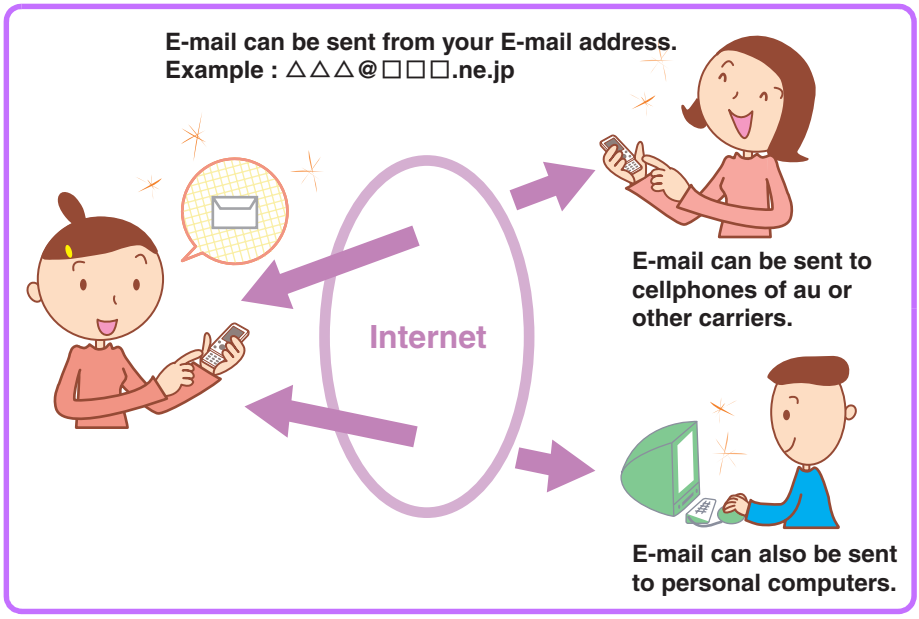

Mail

Application to the EZweb service is required to use E-mail. Contact au shops or the au Customer Service Center if you did not apply to the service at the time of purchase.
Perform the EZweb initialization before using this service. If you have not performed initialization yet, see page 17.

E-mail

EZweb subscription required

E-mail is a service for sending/receiving mails to/from E-mail compatible cellphones and personal computers via Internet E-mail addresses. Up to 5000 two-byte (10000 one-byte) characters can be sent in an E-mail message. Still images (photos) and moving images (movies) can also be sent via E-mail.

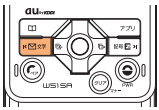

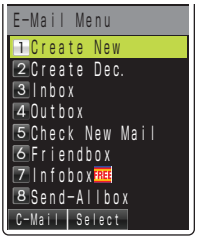

Information

- You can send an E-mail (including Cc and Bcc) to up to 5 E-mail addresses at a time.
- Up to 1000 E-mails (including the number of addresses) can be sent a day.
- Transfer of E-mail with attached data may take time.

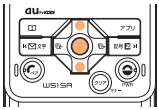

Creating and Sending E-mail

1 **Press [メール/文字] while the standby screen is displayed.**

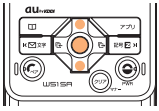

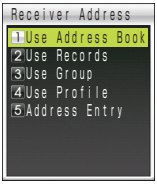

2 **Use ● to select "Create New" and press ● (Select).**

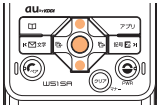

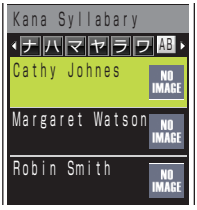

3 **Use ● to select "[Address]" (Address) and press ● (Select).**

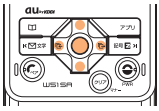

4 **Use ● to select "Use Address Book" and press ● (OK).**

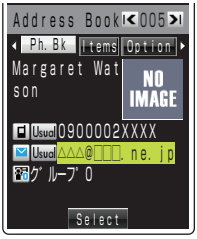

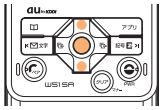

> You can also select the address from "Use Records", or enter the address directly from "Address Entry".

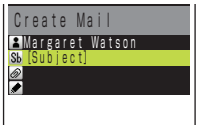

5 **Use ● to search the address book and press ● (Detail).**

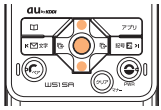

6 Use ◉ to select a desired E-mail address and press ◉ (Select).

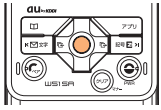

7 Use ◉ to select "Sb" (Subject) and press ◉ (Select).

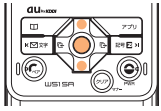

8 Enter the subject and press ◉ (OK).

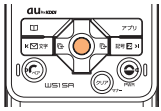

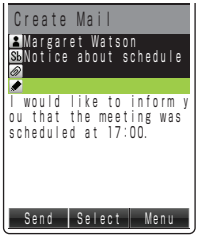

9 Use ◉ to select "✎" (Body) and press ◉ (Select).

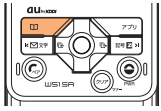

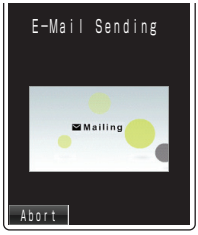

10 Enter the body and press ◉ (OK).

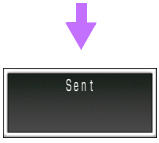

11 Press ▭ (Send).

► After your E-mail has been sent, the screen shown on the right appears.

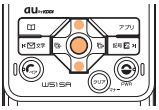

Reading Received E-mail

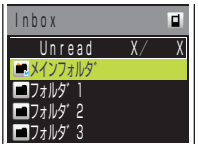

When you receive an E-mail:

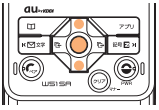

► (New E-Mail) and the number of messages appears.

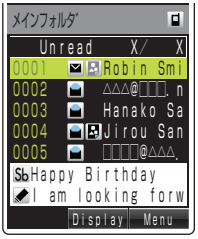

1 Use ◉ to select "✉" and press ◉ (Check).

2 Use ◉ to select the folder in which the new E-mail is stored and press ◉ (Select).

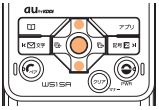

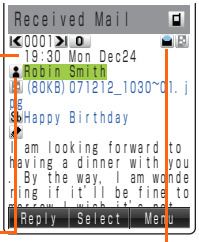

Icons

: Unread mail

: Read mail

3 Use ◉ to select the new E-mail and press ◉ (Display).

How to read received E-mail:

Indicates the time and date when the E-mail was received.

Indicates the sender of the E-mail.

Indicates that the mail has already been read.

Information

- You can read received E-mail by using the following procedure.
  ① Press ✉ while the standby screen is displayed.
  ② Use ◉ to select "Inbox" and press ◉ (Select).
  ③ Use ◉ to select the folder in which the new E-mail to read is stored and press ◉ (Select).
  ④ Use ◉ to select the new E-mail to read and press ◉ (Display).

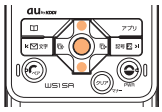

■Viewing Received Photos or Movies

Example: To view a photo attached to a received E-mail

1 Perform steps 1 to 3 on page 44 to display the received E-mail.

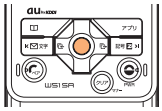

2 Use ◉ to select the attached data and press ◉ (Receive).

► When the reception has completed, the photo is displayed in the text.

3 Press ◉ (Play).

Information

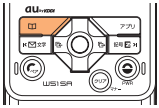

- Depending on the size of the attached data, it can be displayed in the text in step 1 or played back when you press ◉ (Play) in step 2.
- Transfer of E-mail with attached data may take time.
- Mail transfer may take time depending on the condition of the radio wave in the area you are in.

Replying to Received E-mail

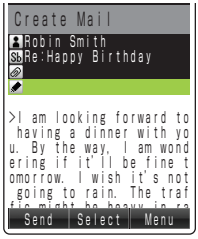

1 **Perform steps 1 to 3 on page 44 to display the received mail.**

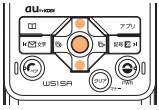

2 **Press (Reply).**

"Re:" is attached to the beginning of the subject and the body of the original E-mail is quoted.

3 **Use to select " " (Body) and press (Select).**

For the subsequent procedure, see steps 10 and later in "Creating and Sending E-mail" (Page 42).

Blocking Junk Mails

To block junk mails, it is recommended to set メールフィルター(Mail Filter). By selecting "サポート設定 (supportive settings)", you can set メールフィルター (Mail Filter) easily by answering the Inquiry on the screen.

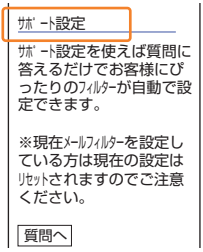

■Setting メールフィルター (Mail Filter)

Example: To access "サポート設定 (supportive settings)"

①Press [メール] while the standby screen is displayed.
②Use ◎ to select "E-Mail Setup" and press ◎ (Select).
③Use ◎ to select "Mail Filter" and press ◎ (Select).
Use ◎ to select "次へ (Next)" and press ◎ (Select).
④Enter your Security Code, press ◎ (OK) and follow the on-screen instructions.

■カンタン設定 (Easy Setup)

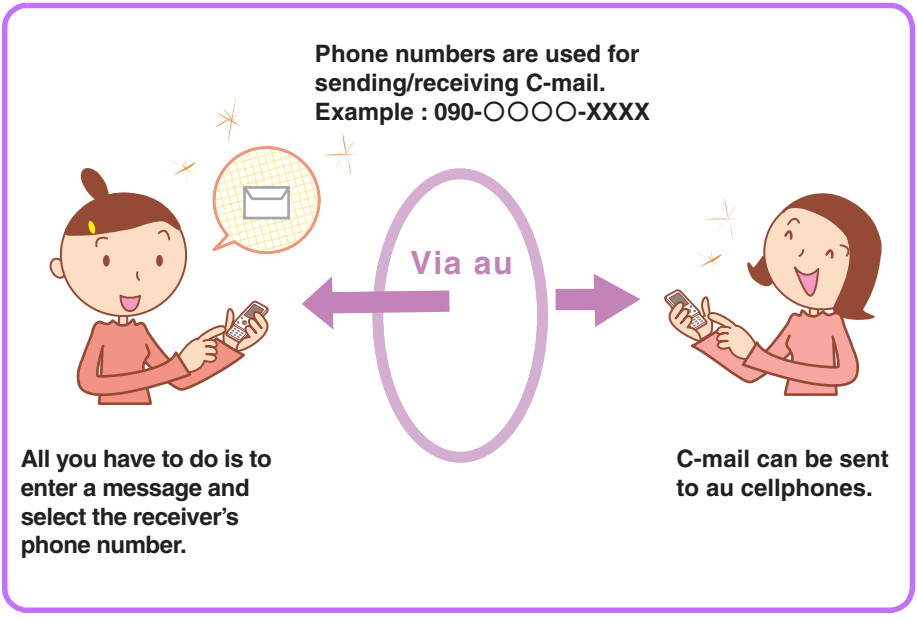

サポート設定 (supportive settings)	Sets the filter by answering the inquiry. For the users who would like to check each setting condition.
フィルターレベル（高） (Filter level (Strict))	Rejects mails from PC. For the users who send/receive the mails only between cellphones.
フィルターレベル（中） (Filter level (Medium))	Selects and blocks the persisting senders. For the users who are annoyed by a stalker or a specific junk mailer.
フィルターレベル（低） (Filter level (Normal))	Blocks the Unsolicited Ad Mails or the Spoof e-mails. The filter minimally required.

Information

- You can also block junk mails by changing your E-mail address. Refer to page 19 to change the E-mail address.

C-mail

C-mail is a service using phone numbers for sending/receiving mails to/from "C-mail" compatible au cellphones. Each message of C-mail can include up to 50 two-byte (100 one-byte) characters.

■C-mail Safe Block Function

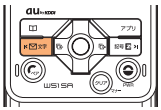

C-mail safe block is a function to reject C-mails that include a URL (http:// △△△ , https:// △△△) or a phone number in the C-mail message text.

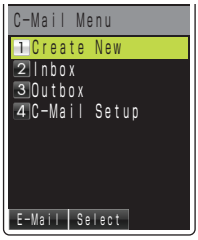

This function is turned ON at the time of purchase.

However, the C-mail safe block function can be turned OFF in order to receive C-mails that include a URL or phone number.

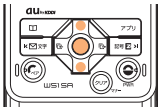

Creating and Sending C-mail

1 **Press [文字] for more than one second while the standby screen is displayed.**

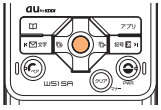

2 **Use ◉ to select "Create New" and press ◉ (Select).**

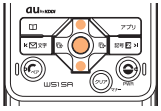

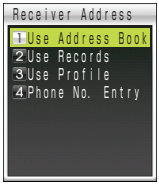

3 **Enter the body and press ◉ (OK).**

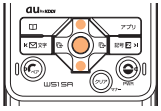

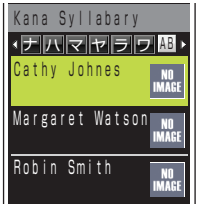

4 **Use ◉ to select "[👤]" (Address) and press ◉ (Edit).**

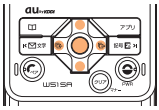

5 **Use ◉ to select "Use Address Book" and press ◉ (OK).**

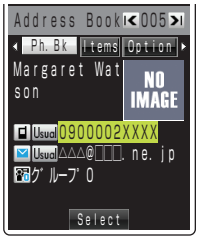

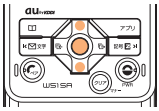

You can also select the phone number from "Use Records", or enter the phone number directly from "Phone No. Entry".

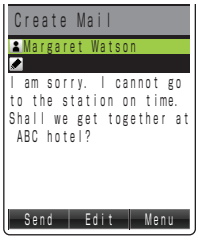

6 Use ◉ to search the address book and press ◉ (Detail).

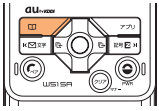

7 Use ◉ to select a desired phone number and press ◉ (Select).

8 Press ▭ (Send).

► After the C-mail has been sent, the screen shown on the right appears.

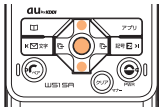

Reading Received C-mail

When you receive C-mail:

(New C-Mail) and the number of messages appears.

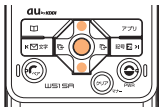

1 Use ◉ to select "✉" and press ◉ (Check).

The received C-mail is usually stored in the "メインフォルダ (Main folder)".

2 Use ◉ to select the folder in which the new C-mail is stored and press ◉ (Select).

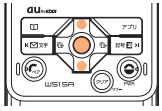

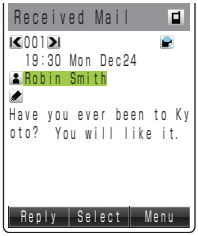

Icons

: Unread mail

: Read mail

3 Use ◉ to select the new C-mail and press ◉ (Display).

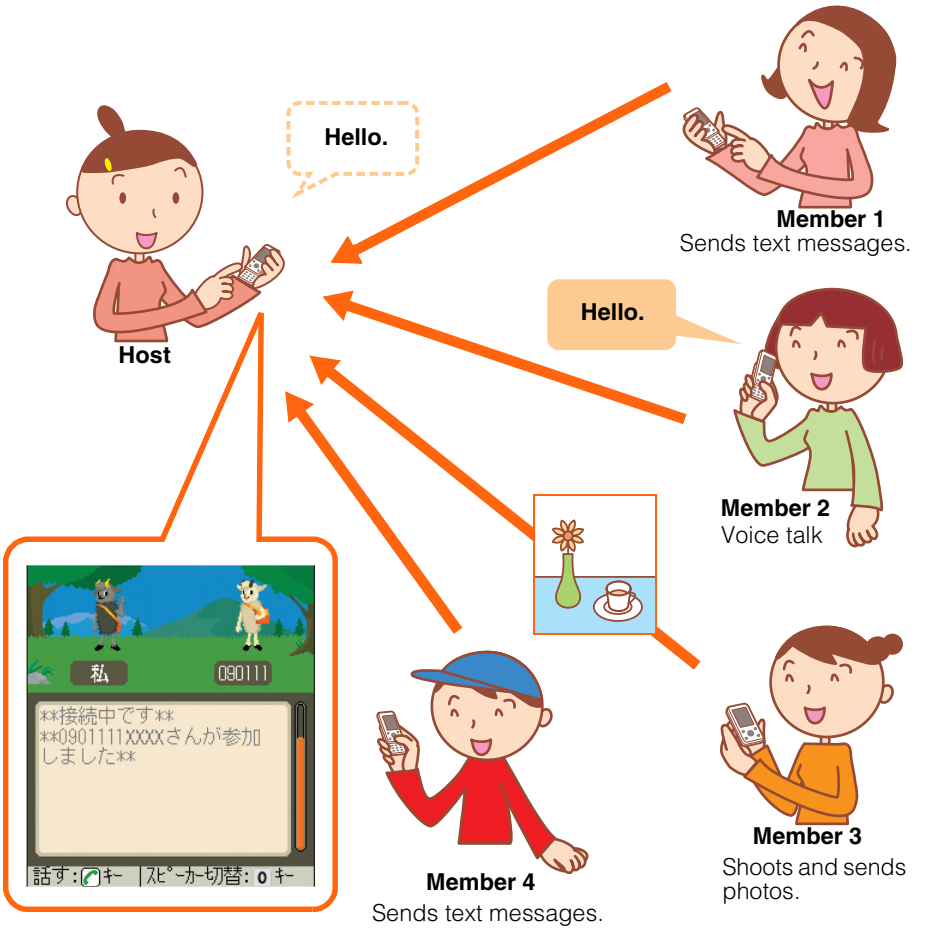

Information

- You can read received C-mail by using the following procedure.
  ① Press 文字 for more than one second while the standby screen is displayed.
  ② Use ◉ to select "Inbox" and press ◉ (Select).
  ③ Use ◉ to select the folder in which the new C-mail to read is stored and press ◉ (Select).
  ④ Use ◉ to select the new C-mail to read and press ◉ (Display).

Hello Messenger

Hello Messenger is a service that allows you to communicate freely in a meeting with the combination of text, voice or photo, between au cellphones "applicable to Hello Messenger" using an animated character you like.
The host can select up to 4 meeting members from the address book.

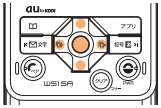

Information

- Note that time available to use W51SA may shorten depending on the conditions such as frequent use, location or the radio wave reception.
- The service is available for members between 2 (minimum) and 5 (maximum).

Displaying Hello Messenger Menu

1 **Press ● while the standby screen is displayed. Use ● to select "Hello Messenger" and press ● (Select).**

When you activate Hello Messenger for the first time, press ● (OK), select your character and press ● (設定(Set)).

Item	Description
スタート (Start)	Selects members to invite and starts the meeting.
コメントログ (Comment log)	Displays the comment log (the log of the meeting).
ヒント (Tips)	Displays the basic operations of Hello Messenger.
オプション (Option)	Makes settings for Hello Messenger.

■Character List

You can choose your character for Hello Messenger from 12 original characters below.

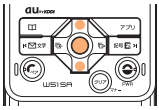

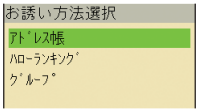

©Yamashita Kohei/mountain mountain

Inviting Member to the Meeting

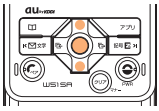

You can select members to invite to the meeting from アドレス帳 (Address Book), グループ (Group) or ハローランキング (Hello Ranking; the ranking of members that you have invited to the meeting or received the invitation), and start the meeting.

1 **Use ◉ to select "スタート (Start)" on the Hello Messenger menu and press ◉ (選択 (Select)).**

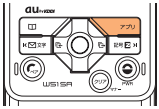

2 **Use ◉ to select "アドレス帳 (Address Book)".**
Press ◉ (選択(Select)) and select the member from the address book following the on-screen instructions.

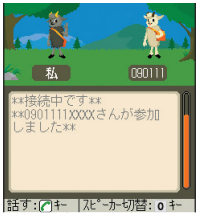

Your name (the name registered in Profile) appears on the top of the member list, and it cannot be deleted/edited.
If you have not registered your name in Profile, the name appears as "私 (Me)". To add the member, select the member list available, press ◉ (選択 (Select)) and repeat step 2.

3 **Press アプリ (お誘い (Invite)).**

Invitation messages are sent to the members registered in the member list.
If the message "○○さんが参加しました (○○-san joins.)" appears, you can start the meeting with the joined members.

Information

- Registration in the member list is also available from グループ (Group) or ハローランキング (Hello Ranking). You can also start the meeting by activating Hello Messenger and selecting the member from the address book, Outgoing Calls or Incoming Calls, or entering the phone number.

When Receiving the Meeting Invitation

When you receive the meeting invitation, Ringer or Vibrator is activated and the invitation screen appears.

However, if you set "着信モード (Incoming Mode)" to "自動応答モード (Auto Answer)", the invitation is automatically accepted without any ringer.

When you receive the meeting invitation:

- The invitation message (the incoming message) screen appears.
- You can check the host's name, the total number of members or received time on the incoming message screen.

1 Use ◉ to select "参加 (Join)" on the incoming message screen, and press ◉ (OK) to join the meeting.

- The meeting screen appears and you can join the meeting.
- If you do not join the meeting, use ◉ to select "不参加 (Not join)" and press ◉ (OK).

Information

- Call notice is not activated from the speaker or the earphone when Manner Mode with Ringer Volume OFF is set.
- The "バイブレータ (Vibrator)" setting in "ハロー着信音(Hello Ringer)" is prioritized over the Manner Mode setting.

Camera

What You Can Do with Camera

W51SA has 1.99-megapixel camera that allows you to shoot photos or movies. The camera has built-in auto focus function. The auto focus function works when you press the shutter key. Photos and movies which you shot can be sent by E-mail.

Use Shot Photos with W51SA

You can set the photos which you shot as the standby screen or the screen for incoming calls or register them in the address book.

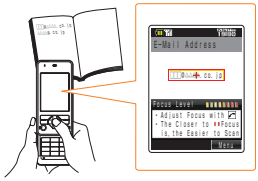

Send Photos/Movies by E-mail (Page 62)

Photos or movies of maximum size 500KB* can be sent by E-mail.

* Mail transfer may take time depending on the condition of the radio wave in the area you are in.

Use The Character Reader (OCR)

Phone numbers, E-mail addresses, URL and Japanese words can be scanned with the camera. You can register the scanned data to the address book, etc.
W51SA has Japanese-English/English-Japanese dictionaries. Translation of the scanned text is available using these dictionaries.

Use Pashamoji Function

Pashamoji Memo allows you to transform handwritten messages in a notebook into a photo to attach to an E-mail. Pashamoji Card is the function that you can create items such as a postcard by combining photos and handwritten messages.

Print Photos You Shot

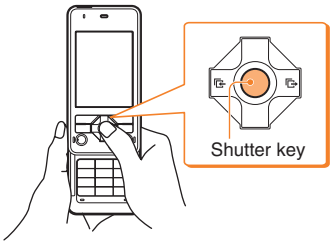

Save the photos you shot in microSD™ Memory Card (commercially available). You can print the photos at photo service shops in the same way as the film developing.

How to Hold W51SA

■Upright

Photo : Mobile/Wallpaper Size
Movie: Standard (S/M Size)
High Quality (M/L Size)
Long-Time (M/L Size, QVGA Size(Vert))

* You can also shoot photos or movies with your W51SA folded.

■Landscape-Oriented

Photo : VGA/SXGA/UXGA Size
Movie: Long-time (QVGA Size(Horz), VGA Size)
Hold W51SA in the direction of .

* You can also shoot photos or movies with your W51SA opened.

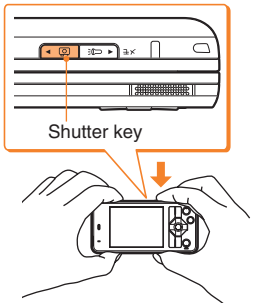

Image-Shooting Posture

Open your feet to the breadth of your shoulders and maintain your back and sides firm.

To Prevent Jiggling

- Hold W51SA firmly with both hands. Do not move your W51SA after pressing the shutter key until you hear the shutter sound and the preview screen appears.
- Using the Self-Timer allows you to shoot photos without pressing the shutter key, which prevents jiggling.

Shooting Photo

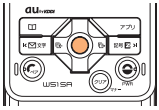

1 Press [camera] for more than one second while the standby screen is displayed.

- The view seen through the lens appears.
- Press [#] or [*] to switch between the light and flash.

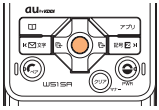

2 Aim at the object on the display and press ● (Shoot).

- The auto focus works and you will hear the shutter sound, then a photo is shot.
- Press [クリア] to re-shoot the photo.

3 Press ● (Save).

■Title of Photo You Shot

The Photo Size is set to "Wallpaper Size" at the time of purchase.

Photo Size*1	Title of a photo	Where to save
Mobile/Wallpaper Size	year + month + date + time + minute + serial number	"Photo Folder" of W51SA
VGA/SXGA/UXGA Size	SA39 + serial number	"DSC Folder" in microSD™ Memory Card*2

Example: The first photo shot at 19:30 on December 24, 2007
Mobile/Wallpaper Size : 071224_1930~01
VGA/SXGA/UXGA Size: SA390001

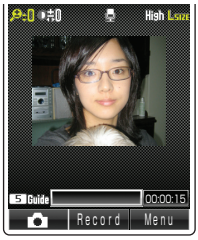

*1 Press [文字] while the live image is on the display to change the Photo Size.

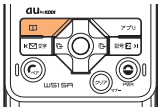

*2 Photos are saved in "Photo Folder" when a microSD™ Memory Card (commercially available) is not inserted, or there is not enough space available in the microSD™ Memory Card.

Recording Movie

1 Press [camera] for more than one second while the standby screen is displayed, and press [soft] ([movie]).

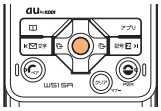

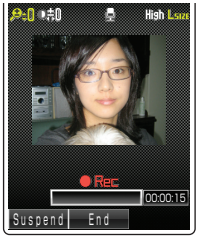

- The view seen through the lens appears.
- Press [#] or [*] to turn the light ON/OFF.

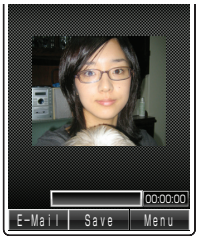

2 Aim at the object on the display and press [OK] (Record).

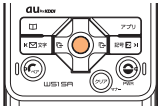

- You will hear the shutter sound. When recording starts, " ● Rec " appears.

Key	Operation
[soft] (Suspend)	Pauses recording. Recording can be resumed by pressing [soft] (Resume).
[OK] (End)	Stops recording.
[menu] (Menu) →[OK] to select "Play" →[OK] (OK)	Plays back the recorded movie.
[clear]	Re-records the movie.

3 Press [OK] (Save).

■Title of Movie You Recorded

The Recording Mode (Size) is set to "High Quality (L Size)" at the time of purchase.

Recording mode (Size)*1	Title of a movie	Where to save
Standard (S Size)	S_year + month + date + time + minute + serial number	"Movie Folder" in W51SA
Standard (M Size) High Quality (M Size) (L Size)	year + month + date + time + minute + serial number	
Long-Time(M Size) (L Size) (QVGA Size(Horz)) (QVGA Size(Vert)) (VGA Size)		"Movie Folder" in microSD™ Memory Card*2

Example: The first movie recorded at 19:30 on December 24, 2007

Standard S Size: S_071224_1930~01

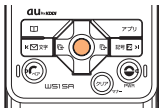

Other modes : 071224_1930~01

*1 Press アプリ (Menu) while the live image is on the display and select "Recording Mode" to specify Recording Mode and Recording Size. Press 文字 while the live image is on the display to change the Recording Size.

*2 Movies are saved in "Movie Folder" when a microSD™ Memory Card (commercially available) is not inserted, or there is not enough space available in the microSD™ Memory Card.

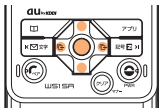

Viewing Photos or Movies

1 Press ● while the standby screen is displayed.

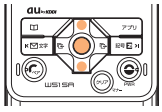

2 Use ● to select "Data Folder" and press ● (Select).

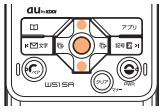

3 Use ● to select "Photo Folder" or "Movie Folder" and press ● (Select).

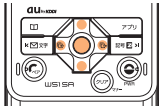

4 Use ● to select a folder with the desired recorded image and press ● (Select).

5 Use ● to select an image and press ● (Select).

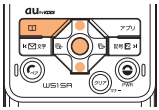

Attaching Photo or Movie to E-mail Message

1 **Perform steps 1 and 2 on page 58 or 59 to shoot a photo or record a movie.**

2 **Press (E-Mail). Use to select "YES" and press (OK).**

The Create Mail screen appears with the image attached.

For the subsequent procedure, see steps 3 to 11 of "Creating and Sending E-mail" on pages 42 to 43.

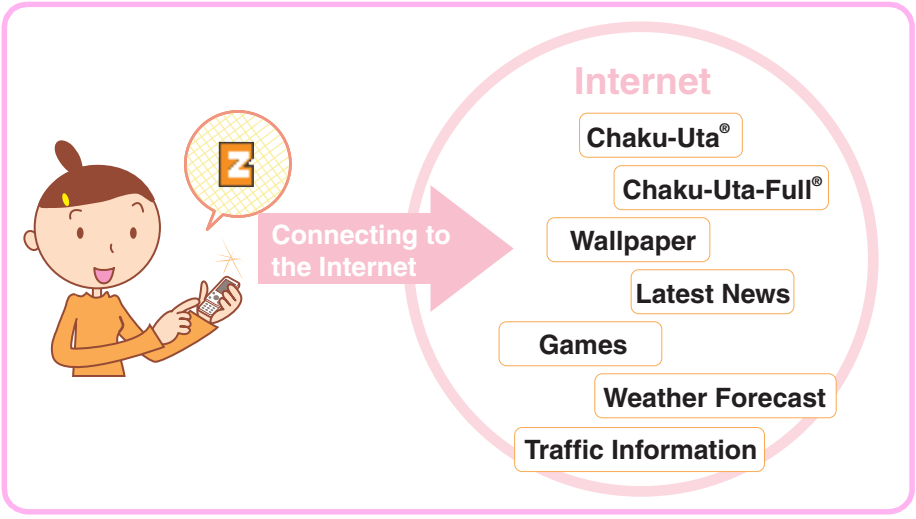

EZweb subscription required

EZweb

Application to the EZweb service is required to use the service. Contact au shops or the au Customer Service Center if you did not apply to the service at the time of purchase.
Perform the EZweb initialization before using this service. If you have not performed initialization yet, see page 17.

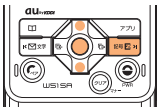

EZweb

EZweb is a service that provides you with information to enjoy the Internet via cellphones.
Chaku-Uta®, the latest news and other contents can be obtained from information sites.

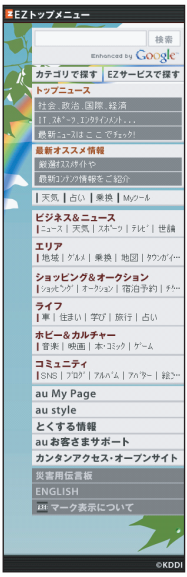

Displaying EZ Top Menu

1 **Press 記号 while the standby screen is displayed. Use ◆ to select "Top Menu" and press ◆ (Select).**

It may take some time to display the top menu.

<EZトップメニュー (EZ Top Menu)>

キーワード検索機能 (Keyword search function)
Provides a search engine for information available by the keyword entry.

カテゴリで探す (Search by category)
Searches for a site by category.

EZサービスで探す (Search by useful EZ services)
Accesses recommended fun and convenient sites.

トップニュース (Top news)
The latest top news topics are delivered by an automatic update.

最新オススメ情報 (Latest recommended information)
Introduces featured topics or contents information of various categories.

デイリーツール (Daily tool)
Provides weather news, fortune-telling, or the useful function of train connection search.

ビジネス&ニュース (Business & News information)
Provides the latest information such as news, weather, or useful information for business.

エリア (Regional information)

Provides interesting, convenient and fun information on SNS and blogs, etc.

au My Page
Provides the various information, useful tools, or large storage spaces, which are appropriate for your selection of the services.

au style
Introduces au-recommended information and sites.

とくする情報 (Valuable information)
Offers gifts and free valuable information to EZweb service subscribers.

au お客さまサポート (au Customer Support)
Provides phone bills, application forms, au online manuals, and au announcement.

カンタンアクセス・オープンサイト (Simple Access & Open Site)
Introduces カンタンアクセス・オープンサイト (Simple Access & Open Site).

災害用伝言板 (Disaster Message Board)
Registers/checks the safety information in disasters.

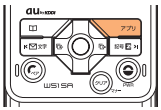

ENGLISH
Introduces English sites.

Information

- The layout and contents of the screens in this manual are examples and are subject to change.

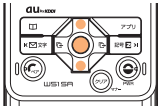

Bookmarking Frequently-Accessed Site

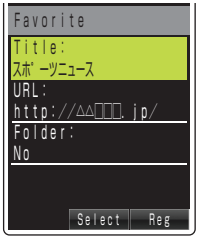

1 **Display the site to bookmark and press アプリ (Browser Menu).**

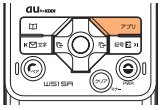

2 **Use ◉ to select "New bookmark" and press ◉ (Select).**

3 **Press アプリ (Reg).**

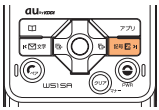

Some sites cannot be bookmarked.

Information

- Up to 100 sites can be bookmarked.

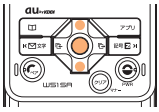

Accessing Bookmarked Site

1 **Press 記号 while the standby screen is displayed.**

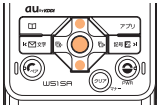

2 **Use ◆ to select "Favorite Site" and press ◆ (Select).**

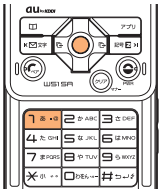

3 **Use ◆ to select a site and press ◆ (Jump).**

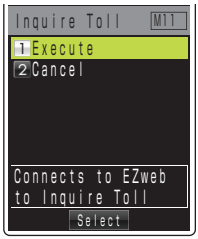

Viewing Charge

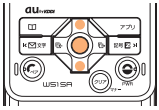

Approximate charges for your calls and transmission can be viewed on EZweb.

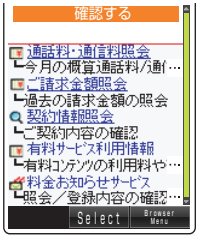

1 **Press ◆ while the standby screen is displayed and press 1 あ・@ twice.**

2 **Use ◆ to select "Execute" and press ◆ (Select).**

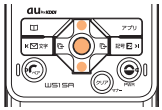

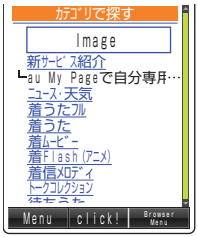

Downloading Chaku-Uta®

1 **Perform step 1 on page 64 to display EZトップメニュー (EZ Top Menu).**

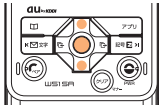

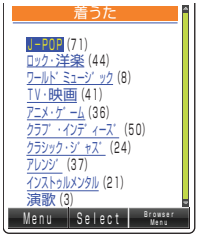

2 **Use ◉ to select "カテゴリで探す (Search by category)" and press ◉ (OK).**

3 **Use ◉ to select "着うた (Chaku-Uta)" and press ◉ (Select).**

4 **Select the content (information site) to use and download data.**

When you access a site requiring additional information fee, input your EZ Password or Premium EZ Password.

EZ Password: The 4-digit number that you have filled in the application form at the time of purchase.

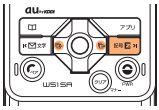

Premium EZ Password: The 4-digit number that you have filled in the application form at the time of purchase.

Follow the on-screen instructions to input either of the passwords.

Downloading Chaku-Uta-Full®

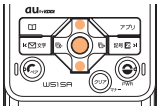

EZ "Chaku-Uta-Full®" is a service that allows you to download a whole song with a CD jacket, lyric, etc. You can play back the downloaded Chaku-Uta-Full® with au Music Player and use a part of the song as Chaku-Uta® for the ringer.

1 Press 記号 EZ while the standby screen is displayed. Use ◆ to select "au Music".

2 Use ◆ to select "Jump to EZ Music!" and press ◆ (Select).

Follow the on-screen instructions after the connection.

When you access a site requiring additional information fee, input your Premium EZ Password. The Premium EZ Password is the 4-digit number that you have filled in the application form at the time of purchase.

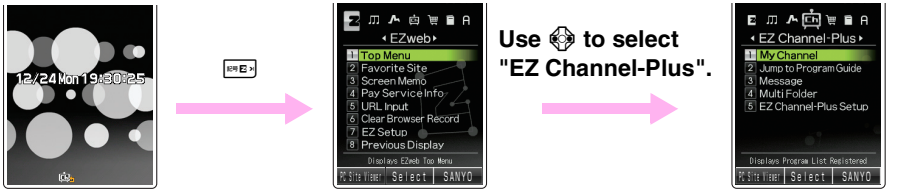

Information

- The communication fee and information fee are charged for downloading Chaku-Uta® or Chaku-Uta-Full® from the paid contents.
- Chaku-Uta-Full® can also be downloaded by selecting "カテゴリで探す (Search by category)" → "着うたフル (Chaku-Uta-Full)" on EZトップメニュー (EZ Top Menu).
- The layout and contents of the screens in this manual are examples and are subject to change.

EZ Channel-Plus/EZ Channel

With EZ Channel-Plus/EZ Channel, the latest contents are automatically distributed and downloaded to your W51SA just by subscribing to the program. You can enjoy EZ Channel like watching TV programs or reading magazines.

■Displaying EZ Channel-Plus Menu

<Standby Screen> <EZ Service Menu> <EZ Channel-Plus Menu>

■Enjoying EZ Channel-Plus/EZ Channel

1 Register the program you are interested in.

You can register up to 16 of your favorite programs (including up to 3 EZ Channels) from the "Jump to Program Guide". The registered programs are downloaded automatically between midnight and early morning, and saved in "My Channel".

* The number of programs that can be registered may differ depending upon the status of the Data Folder.

©KDDI

2 Play the registered programs.

You can play downloaded programs saved in "My Channel" anytime.

3 Save the program.

Newly downloaded programs overwrite the existing data. Save the downloaded data separately to keep in "Multi Folder" or other folders.

* Some programs cannot be saved because of copyright protection.

Information

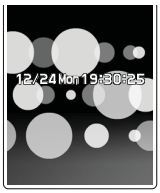

- You must subscribe to the Packet Communication One Price Service in order to register EZ Channel Plus programs.
- Perform the EZweb initialization before using this service. If you have not performed initialization yet, see page 17.
- With EZ Channel programs, a single program download can be as large as 5MB of data. It is recommended that you subscribe to Packet Communication One Price Service.
- The program starts download automatically when the broadcasting start time arrives. Turn fully charged W51SA ON in a location where the radio wave can be received.
- The layout and contents of the screens in this manual are examples and are subject to change.

EZweb subscription required

EZ Navi

What You Can Do with EZ Navi

EZ Navi offers convenient location information services (GPS).

<Standby Screen>

<EZ Service Menu>

Use ◆ to select "EZnavi".

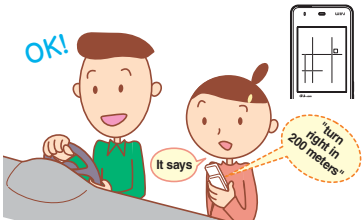

<EZnavi Screen>

"Passenger Seat Navi (EZ助手席ナビ)" for Person on Passenger Seat

"Passenger Seat Navi (EZ助手席ナビ)" provides the person on the passenger seat with the way to the destination by voice directions and maps.

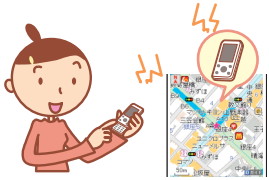

"Safety Navi (安心ナビ)" to Check Where Your Child Is

The "Safety Navi (安心ナビ)" application is composed of 3 functions: "いつでも位置確認 (Auto Position Search)" (monthly charge), "位置確認メール (Position Search Mail)" (free of charge) and "エリア通知 (Area Message)" (free of charge). With these functions, you can check the location of an au cellphone that supports Position Search and/or have a message automatically sent to a specified au cellphone when you enter (or are in) or leave (or are out of) a pre-determined area during a pre-registered time period.

"EZ Navi Walk" for When You Go Out

Displays various menus that are useful when you are out.

ナビをする (Navigation)★	Provides the navigation (voice directions) to the destination, or you can search for shops or facilities around your present location.
地図を見る（無料） (View Map (free))★	You can view a map of your present location or any other location.
乗換検索する（無料*） (Search Connection (free)*)★	You can search the connection of train, timetable and railway information.
道路情報を見る (View Traffic Info)	Check real-time traffic information on the major roads all over Japan.
もっとナビウォーク (EZ Navi Walk)	Provides explanations about each setting or search on PC.
インフォメーション (Information)	You can register for memberships or make inquiries.

★You can also select the service using your voice ("声de入力 (Voice input)").
* A portion of these menus are charged services.

Transfer Search

You can find out the name of the train line, stations to transfer trains at, departure times, and travel times by simply entering the names of the departure and destination stations. Naturally, the times of the first and last trains are also shown.

3D Navi

The display is switched to the 3D image at the guidance point or a point near the destination.

View My Position

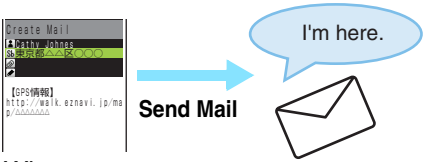

Map Screen

The first positioning result is indicated by ★. After that, your present location will be shown as 🚶 in real-time by continuous positioning.

Your W51SA displays the map of your present location in real-time, by simply selecting "今いる場所の地図 (View My Position)".

Mail My Position

When you are to meet someone, your present location is informed the other party by E-mail.

Information

- The additional information fee may be charged separately from the packet communication fee, to use EZ Navi.
- The layout or contents of the screens in this manual are examples and are subject to change.
- 3D Navi shows the direction of the route to be taken regardless of the direction you are actually traveling at the time.
- 3D Navi communication times will increase greatly in order to display the map.
- 3D Navi can be used on roads in a 50-meter radius from main intersections in the 23 wards in Tokyo and certain designated cities.

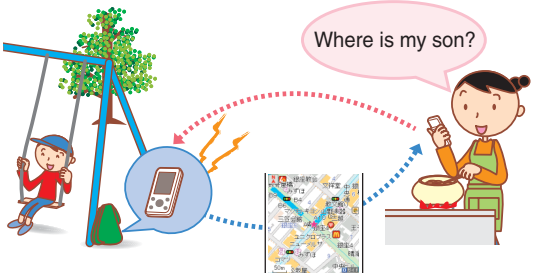

EZweb subscription required

Safety Navi

What You Can Do with Safety Navi

With the W51SA, you can check the location of a specified au cellphone and be notified by mail about movement in regard to a certain area during a registered time period.

いつでも位置確認 (Auto Position Search)

Ex. When the mother checks the location where her child is

● Features

- Register the E-mail address of the mother and the child to the other's cellphone. The mother can check where her child is by Auto Position Search, without any operation by the child.

* Additional monthly charge is required.

位置確認メール (Position Search Mail)

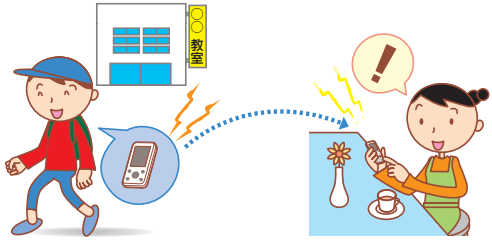

Ex. When the mother sends a mail to her child

● Features

- The mother can send a mail to her child for Position Search. She can easily check where her child is without any service registration, as long as her child's E-mail address is registered in the address book.

* Operation by the child is required to use Position Search Mail.

エリア通知 (Area Message)

Ex. When the mother checks the area where her child is

● Features

- A mother can be automatically notified by mail when her child enters (or is in) a pre-determined area during the time period that she registers in advance. It is also possible for her to receive notification when the child leaves (or is out of) the pre-determined area.

Information

- "安心ナビ (Safety Navi)" service is only available between cellphones compatible with the service.
- Register phone numbers to the address book between cellphones compatible with the service, before using "安心ナビ (Safety Navi)".
- Before using "安心ナビ (Safety Navi)", be sure to confirm and agree to the Terms of Use on starting the service, and make the settings of the Navi Password. ***** The other party is also required to agree to the Terms of Use.
- Area information may appear differently in underpasses, indoor or near buildings where the reception level of the radio wave from GPS satellites is poor.
- If the positioned location information is different from the actual location, Area Message may not be notified correctly.
- Positioning location is not available when the other party's cellphone is under following conditions; out of service area, with Incoming Reject set, with no application, under operation, or incompatible with the service.
- This service becomes unavailable, when "The Use Suspension Course of Charges Monitoring Service" is activated and the charge reaches the upper limit.
- When you stop the C-mail service or "EZ apps Restrict" is set, "安心ナビ (Safety Navi)" is not available.
- The EZ apps communication fee is included in Free Calling Time, however, it is excluded from the discount service of Family C-mail and Packet Communication Discount Service.
- In addition to the packet communication fee, separate information fees are charged for receiving positioning information and viewing maps.
- The screen shown is an example and may differ from the actual screen.

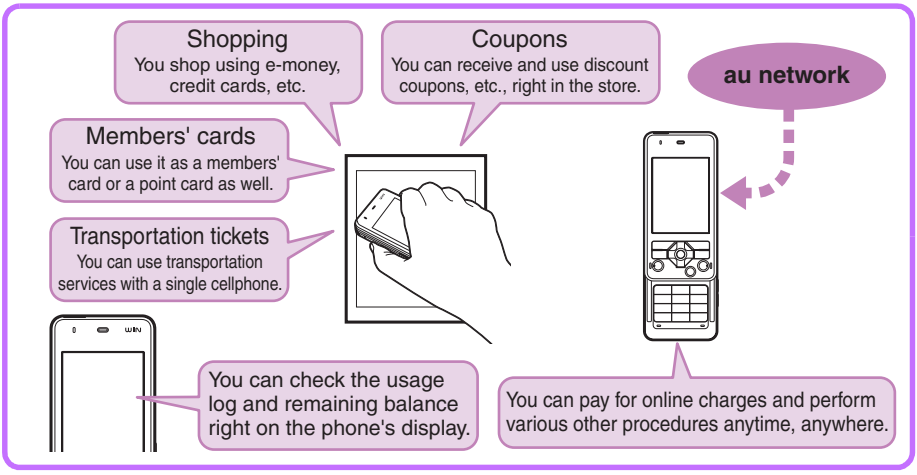

EZweb subscription required

EZ FeliCa

EZ FeliCa is a service that allows you to use a cellphone that has the built-in contactless IC card technology known as "FeliCa". By simply holding the W51SA up to a Reader/Writer (external device)*, your phone can be used for shopping with a credit card and/or e-money, as a members' card, point card, and for receiving coupon information.
In order to use EZ FeliCa, it is necessary to download the application of the company offering the service that you want to use. The "QUICPay™ (クイックペイ)" credit service is preinstalled at the time of purchase. See page 77 for details.

* A device used at the cash register of participating stores that reads/writes data to/from the FeliCa chip.

■What You Can Do with EZ FeliCa

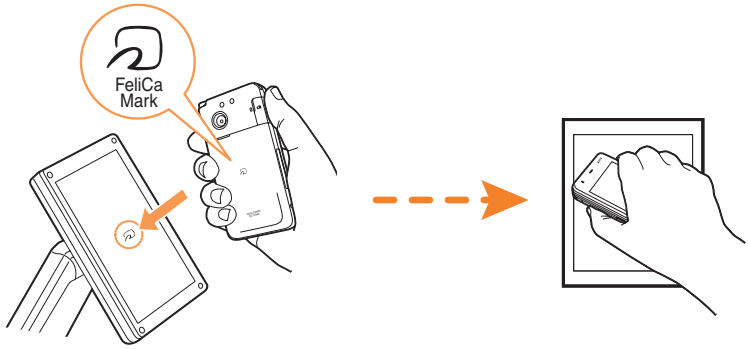

■Cautions when using EZ FeliCa

- Be careful not to lose your W51SA cellphone. If you do happen to lose the phone, contact the company offering the EZ FeliCa service that you are using as soon as possible.
- It is recommended that you turn ON the FeliCa Lock and Remote Ctrl Lock as a precaution in the case of loss or theft.
- KDDI is not responsible for any loss of data caused by the loss of, theft of or accident involving your cellphone.
- Be sure to carefully and securely manage all security codes and passwords.

Using the W51SA with a Reader/Writer Device

The EZ FeliCa function can be used by simply holding the FeliCa Mark to a compatible Reader/Writer device.

1 Hold up the FeliCa Mark to the Reader/Writer device.

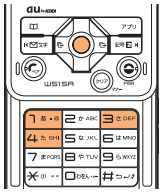

Information

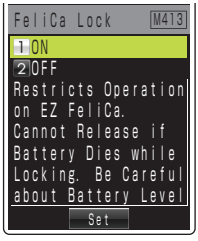

- This function can be used without running FeliCa-supported EZ apps.
- Except for some EZ FeliCa services, this function can be used even with the power to the cellphone turned OFF. It is not, however, available when the FeliCa Lock is turned ON and may also be unavailable when the battery has run out.
- Be careful not to push forcefully on the cellphone when holding the FeliCa Mark to the Reader/Writer.

Turning ON the FeliCa Lock

You can turn ON the FeliCa Lock and restrict use of the EZ FeliCa function. In this case, you can still use the EZ FeliCa function for a specified period of time by pressing ● for more than one second while the standby screen is displayed and entering the Quick Release Code or the Lock No. to temporarily release the lock.

1 Press ● 4 7 3 while the standby screen is displayed.

2 **Use ◉ to select "ON" and press ◉ (Set).**
Enter the Lock No. and press ◉ (OK).

The Lock No. is set to "1234" at the time of purchase.

3 **Use ◉ to select "Quick Unlock" and press ◉ (Select).**
Use ◉ to select "ON" and press ◉ (Select).

4 **Enter a Quick Unlock Key and press ◉ (Set).**
Press アプリ (Save).

The Quick Unlock Key can be entered by pressing up to 4 of the ◉ ◉ ◉ 記号 メール 文字 アプリ カメラ 戻る keys.

Information

- If the battery runs out while the FeliCa Lock is turned ON, it will not be possible to release the lock. You should, therefore, pay due attention to the battery level. If the battery does happen to run out while the FeliCa Lock is activated, first recharge the battery and then release the lock.
- "FeliCa Lock" is displayed in the standby screen when the FeliCa Lock is turned ON.
- If you happen to lose your W51SA, you can activate the FeliCa Lock by turning ON the Remote Ctrl Lock. To enable this function, it is necessary to set the Remote Ctrl Lock in advance.
- Even if you have not set the Remote Ctrl Lock in advance, it is possible to turn ON the Auto Lock, FeliCa Lock and Address Book Restriction functions using the Security Lock Service.
- The FeliCa Lock cannot be activated by turning ON the Auto Lock.

■Temporarily Releasing the FeliCa Lock

① With the FeliCa Lock turned ON, press ◉ for more than one second while the standby screen is displayed.
② Enter the Quick Unlock Key or the Lock No. and press ◉ (OK).

Information

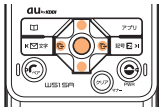

- The FeliCa Lock will be reactivated when you press ◉ for more than one second or once the "Unlock for" is reached (set to 5 min. at the time of purchase).

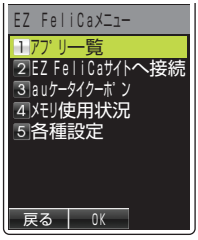

Using FeliCa-supported EZ apps

FeliCa-supported "QUICPay (クイックペイ)" apps are preinstalled in your W51SA.

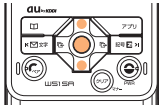

■Starting up FeliCa-supported EZ apps

1 **Press ◉ while the standby screen is displayed, use ◉ to select "EZ FeliCa", and press ◉ (Select).**

2 **Use ◉ to select "アプリ一覧 (Application List)" and press ◉ (OK).**

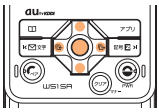

► A list of FeliCa-supported EZ apps stored in your W51SA will be displayed. Select the application you want to use.

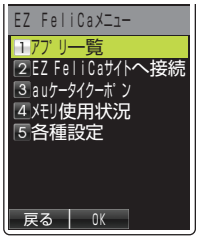

Using au Mobile Coupons

The au Mobile Coupon function allows you to receive and save information regarding available discount coupons, etc., by simply holding the W51SA up to a store's Mobile Coupon-compatible Reader/ Writer (external device).

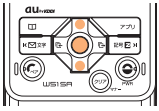

■Displaying the au Mobile Coupon Menu

1 **Press ◉ while the standby screen is displayed, use ◉ to select "EZ FeliCa", and press ◉ (Select).**

2 **Use ◉ to select "auケータイクーポン (au Mobile Coupon)" and press ◉ (OK).**

Information

- Coupon information is also available from E-mail and EZweb, etc.
- You can also send coupon information to friends using E-mail and infrared communication, etc.

EZweb subscription required

EZ Television (1Seg)

You can watch the Digital Terrestrial Broadcasting for Mobile Television Service "1Seg" with W51SA. (Broadcasting within Japan is only available.) In addition to the television programs, you can enjoy data broadcasting programs.

What You Can Do with EZ Television (1Seg)

Watching television programs/data broadcasting programs

Data Broadcast Operation display

(テレビ操作 (TV Operation))

(データ操作 (Data Broadcast Operation))

TV Operation display

(戻る (Back))

(機能 (Function))

Recording programs/capturing programs as still images

Use ◈ to select "録画／キャプチャ (Record/Capture)" and press ◈ (選択 (Select)).

See "Recording a TV Program" on page 82 for the rest of the procedure.

■Digital Terrestrial Broadcasting

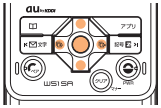

1Seg is a service that uses a part of the radio wave of Digital Terrestrial Broadcasting and enables you to watch TV or data broadcasting programs with cellphones or other mobile devices, in the same way as watching them at home.
This service is called One-segment broadcasting (1Seg) since the 6MHz wave range of Digital Terrestrial Broadcasting is divided into 13 segments, to use one of them for the broadcasting.

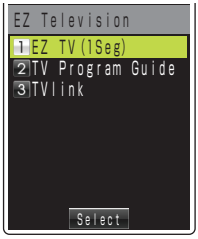

■Before Using EZ Television (1Seg)

- Perform initialization before using the service. If you have not performed initialization yet, see page 17.
- Any fee for packet or other transmission is not charged when watching EZ Television (1Seg). However, you are charged for packet communication if you access the services such as Program Information or Information Window.
- Any fee for packet or other transmission is not charged when watching data broadcasting programs for EZ Television (1Seg). However, you are charged for packet communication if you use the interactive service provided on data broadcasting programs or access the information sites of EZweb.
- EZ Television (1Seg) is not available after you terminate the use of your W51SA.
- When the battery level is "  ", EZ Television (1Seg) cannot be activated. If the battery level changes to "  " during use of EZ Television (1Seg), EZ Television ends automatically.
- The duration available for viewing with the W51SA* is approximately 5 hours and 5 minutes (DBEX OFF)/4 hours and 55 minutes (DBEX ON). It is subject to change due to the operation of the data broadcasting.
  * When outputting from the earphone
- Deteriorated image, poor image or sound quality or reception failure may occur in mountainous areas, near buildings, in underpasses, in tunnels, or indoors because of poor TV reception. Try the following to improve the reception of the radio wave:
  - ・Extend the W51SA Antenna (for EZ Television (1Seg)/EZ・FM) to locate the direction for the best reception.
  - ・When you are indoors, take your W51SA as close to a window as possible.
- 1Seg has been introduced in Tokyo/Nagoya/Osaka and some other areas since April 1st, 2006. See the websites below for more details.
  The Association for Promotion of Digital Broadcasting
  http://www.d-pa.org/ (For PC)
  http://www.d-pa.org/1seg/k (For Cellphones)
- The layout and contents of the screens in this manual are subject to change. Screen images are examples.

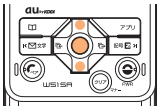

Watching EZ Television (1Seg)

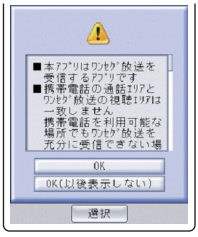

1 **Press ● while the standby screen is displayed. Use ● to select "EZ Television" and press ● (Select).**

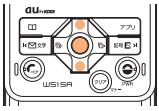

2 **Use ● to select "EZ TV(1Seg)" and press ● (Select).**

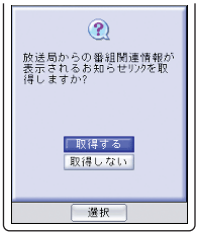

► 注意事項 (Precautions) screen appears.

3 **Use ● to confirm 注意事項 (Precautions). Use ● to select "OK" and press ● (選択 (Select)).**

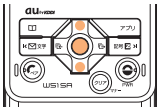

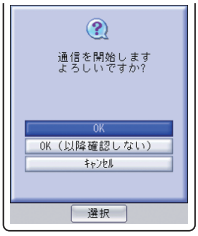

The initial setting screen for EZ Television (1Seg) appears. Follow the on-screen instructions for each setting, and the screen to set channels appears.

「If you select "OK (以後表示しない(No further indication))", the precaution screen does not appear any more.

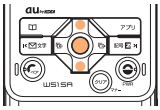

4 **Use ● to select "オート設定 (Auto-setting)" and press ● (選択 (Select)).**

Select "マニュアル設定 (Set manually)" to set the area manually.

5 Use ◉ to select "OK". Press ◉ (選択 (Select)) and press ◉ (選択 (Select)).

©KDDI powered by NANO Media Inc.

The data reception area and channels are automatically set and one of the broadcast programs appears on the screen.

If you select "OK (以降確認しない (No further confirmation))", a confirmation screen for data communication does not appear any more.

It may be difficult to properly set channels when you first start using the "1Seg" Digital Terrestrial Broadcasting for Mobile Television Service.

Information

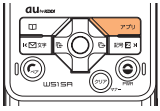

- When starting up EZ Television (1Seg), a characteristic of Digital Broadcasts in which it can take some time to receive images, and especially Data Broadcast data, may appear.
- After starting up EZ Television (1Seg) the first time, the channel last selected during the previous use will be displayed. If you have moved to a different area or are in an area with poor reception, you will need to reset the channel(s).

■To Switch イヤホン (Earphone) and スピーカー (Speaker)

This setting is set to "**オート** (Auto)" (switch sound output automatically to either the earphones or speaker depending upon whether earphones are attached or not) at the time of purchase.

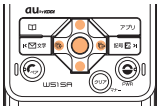

Recording a TV Program

1 Press アプリ (機能 (Function)) while the TV or Data Broadcast Operation display.

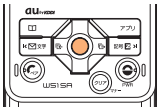

2 Use ◉ to select "録画／キャプチャ (Record/Capture)" and press ◉ (Select).

If you press アプリ (画像保存 (Save Image)) and then ◉, you can save the currently displayed image as a still image.

3 Press ◉ (録画開始 (Start Recording)).

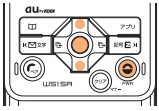

4 Press ◉ (録画停止 (Stop Recording)).

Information

- Videos are saved in the "EZ Television" folder within either the Data folder or the SD-Video folder. Still images are saved in the "Graphics" folder within the Data folder.
- Recording may not be possible if there is insufficient space left in the Data folder.
- The amount of recording time possible will differ depending upon the amount of space remaining in the Data folder or microSD card, as well as depending upon the content of the program being recorded (volume of the Data Broadcast data, etc.). The maximum amount of recording time possible is approximately 5 hours when saved to the cellphone's Data folder and approximately 10 hours when saved to a 2-GB microSD card.
- The titles of recordings saved are displayed as the "(program name at the start of recording)" plus "(date at the start of recording)". The titles of still images saved are displayed as "DTV)" plus "(date started)" plus "(time started)" plus "(serial number)".
- Recorded TV programs and saved still images are saved with copyright protection and it is not possible to attaching them to E-mails or copy and/or transfer them to external devices. It is also not possible to register them for use as the standby screen, etc.

Ending EZ Television (1Seg)

1 Press ⊜. Use ◉ to select "End" and press ◉ (OK).

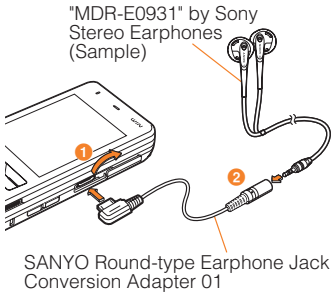

EZweb subscription required

EZ・FM

You can listen to FM radio with your W51SA. The audio on the FM radio can be recorded.

■Antenna Available for W51SA

To listen to EZ・FM, use the antenna for optimal reception of airwaves. The reception antenna when listening to EZ・FM will be as follows.

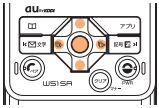

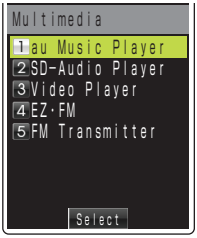

Without connecting the included earphones (Sony MDR-E0931)	The whip antenna on the W51SA will receive the radio waves. Extend the whip antenna and locate the direction that offers the best reception.
With the included earphones (Sony MDR-E0931) connected	The earphones will receive the radio waves. In this case, there will be no effect even if you extend the W51SA's whip antenna. Extend the earphone cord and locate the direction that offers the best reception.

*When you are indoors, take your W51SA as close to a window as possible.

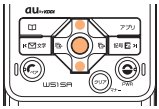

Listening to EZ・FM

1 **Press ◆ while the standby screen is displayed. Use ◆ to select "Multimedia" and press ◆ (Select).**

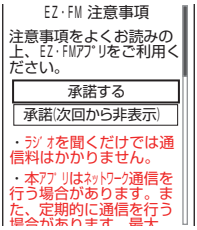

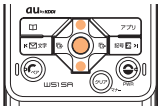

2 **Use ◆ to select "EZ・FM" and press ◆ (Select).**

► 注意事項 (Precautions) screen appears.

3 Use ◉ to confirm the precautions. Use ◉ to select "承諾する (Agree)" and press ◉.

When you activate EZ・FM for the first time, the initial screen for the area setting appears. Select the area you are in.

Information

- Perform the EZweb initialization before using this service. If you have not performed initialization yet, see page 17.
- Listening to EZ・FM is free of charge. However, packet communication fees are charged for such services as "曲名表示 (showing the song title on the air)".
- The audio on the FM radio can be recorded.
- At the time of purchase, EZ・FM is set to turn OFF automatically if no operation is performed on the phone for approximately 2 hours. This setting can be changed using the "ラジオ自動終了 (Radio Auto OFF)" procedure.
- The layout and contents of the screens in this manual are subject to change. Screen images are examples.

■Viewing and Operating the EZ・FM Screen

<EZ・FM Screen>

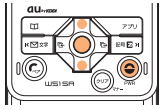

- ●Icons appear if downloadable information is provided.
- ●Radio frequency
- ●Switching Speaker/ Earphone
- ●Radio station/Song title
- ●Banner

Main operations:

Key	Operation
◉	Switches radio stations. * Press 1 to 9 to switch to a radio station which is set to each key.
クリア→◉	Tunes in on the station by 0.1 MHz. * Press ◉ for more than one second and tuning starts automatically. Press 0 to 9 to input the radio frequency directly.
◉／音量	Increases the volume.
◉／音量	Decreases the volume.

Listen as BGM/Stopping EZ・FM

1 Press ⊜, use ◉ to select "Suspend (BGM)" or "End", and press ◉ (OK).

Remote Ctrl Lock

In Case You Lose Your W51SA

The Remote Ctrl Lock function enables you to turn ON the Auto Lock, FeliCa Lock and Address Book Restriction functions through remote operation so that no one else can use your W51SA.

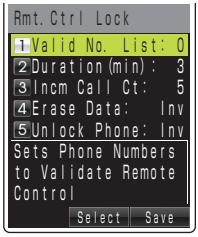

■Setting Remote Ctrl Lock Activation Conditions

The Auto Lock, FeliCa Lock and Address Book Restriction functions are activated when your W51SA receives the specified number of calls from the registered phone number within the specified period of time.

①Press ● 4 7 4 while the standby screen is displayed.

②Use ● to select "ON" and press ● (Set).
Enter your Lock No. and press ● (OK).

- Lock No. is set to "1234" at the time of purchase.

③Use ● to select "Valid No. List" and press ● (Select).
Use ● to select "Register New" and press ● (Select).

④Use ● to select "Direct Entry" and press ● (OK).
Enter a phone number and press ● (OK).

- You can also select "Use Address Book" to enter a phone number.
- Up to 3 phone numbers can be registered.

⑤Press アプリ (Comp).

⑥Use ● to select "Duration(min)" and press ● (Select).
Enter Duration and press ● (Set).

- Duration(min): Sets the time limit to receive the specified number of incoming calls. The time can be set between 1 and 10 minutes.

⑦Use ● to select "Incm Call Ct" and press ● (Select).
Enter Incoming Call Count and press ● (Set).

- Incm Call Ct: Sets the number of incoming calls required for activating Remote Auto Lock. The count can be set between 3 and 10 times.

⑧Press アプリ (Save).

■Remotely Activating the Auto Lock, FeliCa Lock and Address Book Restriction Functions on the W51SA

1 Call your W51SA in the conditions set for Remote Ctrl Lock.

► Remote Ctrl Lock is activated and an announcement to that effect will be played once the specified number of calls is received from the registered phone number within the specified period of time.

■Activating the Lock through the Security Lock Service

Even if you have not set the Remote Ctrl Lock in advance, the Security Lock Service gives you the ability to turn ON the Auto Lock, FeliCa Lock and Address Book Restriction functions remotely by calling the au Customer Center or performing a specified procedure from a PC. This service is available free of charge.

Using the Security Lock Service

●Turning Remote Ctrl Lock ON/OFF by calling the au Customer Center
From au cellphones: 113 area code not required (Toll-Free)
From cellphones except au, or regular phones: 0077-7-113 (Toll-Free)
Hours: 24 hours a day
⇒Follow the voice guidance instructions.

●Turning Remote Ctrl Lock ON/OFF using a PC
Login to MyKDDI (http://my.kddi.com/) and perform the procedure indicated on-screen.
*It is necessary to apply for this service before using it for the first time. (Application is possible even after you may have lost your phone.)

Information

- Remote Ctrl Lock cannot be activated if your W51SA is not powered on or under an area with bad reception, or Emission OFF is set to "Valid".
- "Erase Data" and "Unlock Phone" are both set to "Invalid" at the time of purchase.
- The Security Lock Service is scheduled to be available starting from March 2007.

Other Features

W51SA is provided with other useful features.

Global Expert

The W51SA supports Global Expert function using au IC card.
Global Expert is an international roaming service that allows you to connect to the world by simply inserting your au IC card into a GSM mobile phone for overseas use. No special application or daily/monthly charges are needed. Charges for overseas calls are billed together with monthly domestic calling charges.

au My Page

This service saves the data that is on your W51SA, enabling you to backup the contents of your address book, your E-mail, and your Data folder.

EZ News Flash

This information delivery service enables you to check the news and weather, etc., on the standby screen.

FM Transmitter

This feature enables you to transmit the sound from the au Music Player, SD-Audio Player and Video Player using the FM radio band, and then receive and play that sound using the FM tuner in your home stereo system or car stereo, etc.

PC Site Viewer

This feature enables you to view Internet Web Sites created for display on PCs.

microSD™ Memory Card (Commercially Available)

You can keep various data on a microSD™ Memory Card (commercially available).

Decoration Mail

You can send a decorated E-mail with various font colors, font sizes or templates to a cellphone which supports the function.

au Music Port

Music data downloaded from au Music Port or purchased at LISMO Music Store can be transferred to your W51SA. You can also edit the address book or schedule in your W51SA, or keep and manage the photo or movie data in your PC, which were shot with your W51SA.

Ugomoji Mail™

You can enjoy displaying pictographs or texts in sent/received E-mails as animation.

Quiz Training

You can enjoy 3 mini games such as "Number Quiz", "Sound Quiz" or "English Quiz".

Troubleshooting

Symptom	Item to Check	Solution	Page
Cannot turn the power ON.	Is the battery pack charged?	Charge the battery pack.	12
	Did you press ⏻ for more than one second?	Press ⏻ for more than one second.	13
Cannot make a call.	Does Out appear on the screen?	Try to make the call again at the place where Out does not appear on the screen.	13
	Did you include the area code?	If you are making a call to a phone other than a cell phone, include the area code, even when calling from the same city.	21
	Is the power turned ON?	Press ⏻ for more than one second.	13
	Did you press ✆ ?	Press ✆ after entering the phone number.	21
Cannot receive calls.	Does Out appear on the screen?	Move to a place where Out does not appear on the screen.	13
	Is the power turned ON?	Press ⏻ for more than one second.	13
The battery runs out in a short time.	Have you used "EZ Television (1Seg)", "Hello Messenger", "au Music Player" or "FM Transmitter", etc. for a long time?	EZ apps (BREW®) such as EZ Television (1Seg) may consume a large amount of the battery. Note that "Hello Messenger", the "au Music Player" and the "FM Transmitter", etc., also require a large amount of battery power.	—
	Do you often use W51SA in standby where Out appears?	Move to a place where Out does not appear on the screen.	13
Keys do not respond.	Is the power turned ON?	Press ⏻ for more than one second.	13
The power is turned off after an alarm sounds.	The battery pack level is low.	Charge the battery pack.	12
Calls are answered automatically.	Is Answer Phone ON?	Turn Answer Phone OFF by pressing メール and selecting "Ans Ph/ Ph Memo", then selecting "Answer Phone" and then "OFF".	25
Cannot hear the other party's voice.	Is the receiver volume setting high enough?	Press ◎ while talking. The volume of the other party is increased.	24

携帯電話・PHSのリサイクルにご協力を。

Cellphone and PHS operators collect and recycle unused telephones, batteries and battery chargers at stores bearing the logo regardless of brand and manufacturer to protect the environment and reuse valuable resources.
