“▼” —Press the key to select the previous music. Press and hold the key to go into the volume adjustment, decreasing the volume correspondingly.

Introduction of earphone hole functions

When the user inserts the earphone cable, the Exquisite MP3 can be running automatically and circularly under the condition of enough battery power.

When the user pulls out the earphone cable, the Exquisite MP3 will be closed automatically.

When the user inserts USB cable, the PC can supply the data and the power for the Exquisite MP3.

Introduction of LED working status

When you insert the earphone cable, the Exquisite MP3 will start working. The LED flickers normally. If you press the key, the LED will flicker more quickly.

After you insert the USB cable, If you download or upload music files to MP3 player, The LED will flicker more quickly, otherwise The LED is still on.

When the USB cable has connected with PC for about 3 hours, LED will be off, which shows the battery is charged up fully. Before exhausting the battery power, The LED will persist in another flickering mode all along (ON 200 milliseconds, OFF 6 seconds), which applies to the hint of low power. After removing the earphone cable or USB cable, The LED will be off.

Play music

When there are compatible audio files (*.mp3, *.wma) in your MP3, you can insert the earphone. Then the Exquisite MP3 will Play circularly and automatically.

Troubleshooting

Unable to boot-strap	1. Reset again. 2. Examine whether the battery quantity of electricity is enough.
No music play in earphone	1. The music file must be MP3, or WMA. 2. Examine whether the earphone is in good quality. 3. Examine whether the music file is in good quality.
Unable to download music normally	1. Examine whether the free memory is enough. 2. Examine whether the USB is in good quality and right connected.
